# Annual Index

## AUTHORS

Abbott, A. C. (Prendergast): Histological variations in animal thyroids in Western Canada...741

Abbott, H.: cf. Golden .....225

Abel, E. (Girard): The mechanism of melanoderma in the course of the pigmentary cirrhoses; rôle of the endocrine glands .....112

Aberle, S. B. D. (Jenkins): Undescended testicles in man and rhesus monkeys treated with anterior pituitary-like principle from the urine of pregnancy...363

Abrahamson, J.: cf. Ohler.....251

Abrams, M. I. (Gilligan): Carbohydrate metabolism in human hypothyroidism induced by total ablation of the thyroid gland; the blood sugar response to insulin .....741

— cf. Gilligan .....743

Abramson, M.: The effects of pregnancy on the organ weights of the albino rats.....224

Aff, Helen (Loeb): Effect of combination of two antagonistic anterior pituitary hormones on sex organs of guinea pigs.....489

Agate, F. J., Jr. (Zwemer): Some factors affecting adrenal insufficiency in the rat.....719

Agduhr, E.: Influence of pregnancy, increased sexual function in males, and of irradiated ergosterol on growth.....112

Agnew, G. H.: cf. Mack.....365

Albright, F. (Aub and Bauer): Hyperparathyroidism; a common and polymorphic condition as illustrated by seventeen proved cases from one clinic..241

— cf. Aub.....242

Aldrich, C. A.: Growth and development; the endocrine glands and growth .....721

Allen, E.: Glandular physiology and therapy; the physiology of estrogenic principles .....723

— (Diddle and Elder): Theelin content of pregnancy urine and placenta of the chimpanzee .....723

— (Gardner and Diddle): Experiments with theelin and galactin on growth and function of mammary glands of the monkey .....305

— cf. Gardner .....725

— cf. Overholser .....727

Allen, Ezra: cf. Weisman.....395

Allen, E. B.: Menstrual dysfunction in disorders of the personality: their nature and treatment .....255

Alper, J. M.: cf. Thompson.....630

Alyea, E. P.: Medulloblastoma involving the kidney .....105

Andersen, Dorothy H. (Wolfe): Pinealectomy in rats, with a critical survey of the literature.625

Anderson, Evelyn (Collip): Preparation and properties of an antithyrotropic substance .....489

— cf. Collip .....616

— cf. Pugsley .....745

Andreyev, L. (Pugsley): A study of the effects of hypercalcaemia produced by parathyroid hormone and irradiated ergosterol upon the activity of the cerebral cortex by means of conditioned reflexes .....242

Anselmino, K. J. (Herold and Hoffmann): Pancreatropic action of extracts from anterior lobe of hypophysis.....230

— (Hoffmann): The pancreatropic substance in the pituitary (anterior lobe). Preparation and properties. Mode of action .....490

— (Hoffmann and Herold): Parathyrotropic action of extracts of anterior lobe of hypophysis .....230

— cf. Hoffmann .....233

Anspach, B. M. (Hoffman): Endometrial findings in functional menstrual disorders .....607

Anthony, G. E.: cf. Waldbott...504

Appelrot, S.: Pilocarpine and insulin secretion .....125

Aron, M.: Experiments with injections of anterior hypophyseal extract into the foetus of the guinea pig in utero.....729

Arthus, A.: Acceleration of growth of newborn rats obtained by oral administration of deproteinized placental extract to the mothers .....625

Aschheim, S.: Glandular physiology and therapy; pregnancy tests .....607

Asher, Dorothy: cf. Shelling.... .....376, 625

Atchley, D. W.: cf. Loeb.....481

Aub, J. C. (Albright, Bauer and Rossmeisl): Studies of calcium and phosphorus metabolism; in hypoparathyroidism and chronic steatorrhea with tetany with special consideration of the therapeutic effect of thyroid...242
— cf. Albright .....241
Ault, C. C.: cf. Werner.....368
Avellone, L.: cf. La Grutta .....245
Avin, J.: cf. Gordon .....572

Bach, E.: cf. Balo.....236
Bacq, Z. M.: Appearance of hyperglycemia in cats after stimulation of the peripheral end of the sympathetic nerve .....105
Baird, P. C. (Lingley and Palmer): The failure of roentgen-ray therapy of pituitary and adrenals in essential hypertension.721
Balo, J. (Lovas, Bach and Neufeld): Antagonistic action of new pancreas extract on thyrotoxicosis .....236
Banerji, H. (Reid): The adrenals and anaesthetic hyperglycemia .....479
——— The adrenals and glucose tolerance .....359
Bannick, E. G.: Suprarenocortical syndrome and pituitary basophilism; unusual case of hirsutism and alopecia .....606
Banyal, A. L. (Jurgens): Insulin therapy in tuberculosis .....370
Barbour, O.: The use of thyroid and suprarenal in the diathesis of infancy .....113
Barnes, B. O.: cf. Dix.....742
Barnett, A.: Certain factors affecting constancy of impedance angle .....668
Barris, R. W.: cf. Ingram.....432
Barowsky, H.: cf. Kleiner.....610
Bastenie, P.: Epithelial alterations and lymphocytic infiltrations in the human thyroid....625
Batuschanskaya, M. I.: cf. Sorkin.738
Bauer, C. P.: cf. Kanter .....610
Bauer, J. (Hoffman): Reduction of serum lipase produced by thyroxine and inhibition of this action of thyroxine .....504
Bauer, W.: cf. Albright .....241
— cf. Aub.....242
Becker, T. J.: cf. Kunde.....128
di Benedetto, E.: Absence of supposed hypoglycemic activity of blood from hypophysectomized dogs .....490
— cf. Houssay .....113, 123
Benjamin, J. A.: The occurrence of pigment in the pars intermedia and the pars tuberalis of the hypophysis and in the hypophyseal leptomeninges of the rats (domestic and wild).....615
Benner, Mirian Cromwell: cf. Latta .....249
Berger, O.: cf. Lucke.....496
Berlin, D. D. (Blumgart, Weinstein, Riseman and Davis): Treatment of angina pectoris and congestive failure by total ablation of the normal thyroid gland; with particular reference to surgical technique and summary of results in rheumatic heart disease .....742
— cf. Blumgart .....626
— cf. Myerson .....251
— cf. Weinstein .....254
Bialet-Laprida, Z.: Action of folliculin on hypophysis .....114
— Effect of folliculin on compensatory hypertrophy of ovary.114
— Effect of folliculin on ovarian grafts .....115
— Effect of folliculin on thyroid.245
Biasotti, A.: Anterior pituitary extract and glucose tolerance.490
— The thyroid and diuretic action of extract of the anterior hypophysis .....729
— Thyroid and diuretic activity of anterior pituitary lobe extract .....122
— cf. Houssay .....108, 233
Bicknell, F.: Addison's disease due to malignant involvement of the solar plexus .....479
Billeter, O. A.: cf. Freudenberger .....347
Binet, L. (Verne and Messimy): Endocrine reactions in dogs with experimentally produced pancreatic diabetes .....622
Black, H. A. (Kampmeier): Coronary artery disease in hypothyroidism .....504
Black, P. T.: The inactivation of insulin by normal and diabetic blood .....499
Blotner, H.: Effect of pitocin, pitressin and antuitrin on fat tolerance tests .....587
— The use of insulin in malnutrition .....736
Blount, R. F.: Size relationships as influenced by pituitary rudiment implantation and extirpation in the urodele embryo....729
Blum, F. (Lehmann and Leistner): Studies on the physiology of the thyroid gland; the iodine-containing substance of the thyroid .....376
Blumgart, H. L. (Berlin, Davis, Riseman and Weinstein): Total ablation of thyroid in angina pectoris and congestive failure; summary of results in treating seventy-five patients during the last eighteen months.626
— cf. Berlin .....742
— cf. Friedman .....247
— cf. Weinstein .....254
Blumgarten, A. S.: Spontaneous hypoglycemias in endocrinopathies .....482
Bohrstedt, G.: cf. Kozelka.....374

Boller, R. (Uiberrak and Falta): The demonstration of insulin in blood by means of blood transfusion; investigations on healthy individuals and diabetics.....736
——The humoral nature of insulin resistance .....622
Bouckaert, J. J.: cf. Heymans...122
Boyd, E. M. (Elden): Relation of lipids to oestrin and progestin in corpus luteum of sow.....599
Boyd, R. W.: cf. Weichert..607, 631
Boyd, W. L.: cf. Hutt.....398
Bowen, B. D. (Griffith and Sly): The effect of a high fat meal on the respiratory quotient and heat production of normal and obese individuals .....721
Bowen, W. L.: Surgery of the thyroid in children .....504
Braier, R.: Purine metabolism in hypophysectomized dogs .....122
Bram, I.: Adrenal cortex therapy in Graves' disease .....105
— Exophthalmic goiter in children of ten and under.....245
Brandon, R.: cf. Hutton...114, 483
Brandstrup, E.: cf. Lassen.....494
Braucher, Pela Fay: cf. Riddle..121
Brazier, M. A. B.: An electrical method for use in the diagnosis of diseases of the thyroid gland.245
— A method for the investigation of the impedance of the human body to an alternating current .....626
Bredt, H.: Nature and types of gynecomastia .....482
Brem, J. (Leopold): Ovarian therapy; relationship of the female sex hormone to hemophilia....226
Brickner, R. M.: cf. Riley.....118
Brindeau, A. (Hinglais and Hinglais): Amount of folliculin in the body fluids of a woman castrated in the second month of pregnancy .....608
Britton, S. W. (Silvette): The apparent prepotent function of the glands .....359
— cf. Corey .....106
Brookfield, R. W. (Corbett): Diabetes mellitus in association with degeneration of the suprarenal glands .....221
Brooks, C. M.: The resistance of surviving spinal animals to hypoglycemia induced by insulin.125
Bronstein, I. P. (Brown): Hypothyroidism and cretinism in childhood; mental development.376
— (Milliken): Hypothyroidism and cretinism in children; capillary permeability .....505
Brosius, W. L.: Clinical observations on effects of APL (Antuitrin-S) on the testicle..... 69
Broster, I. R. (Vines): The adrenal cortex: A surgical and pathological study .....356
Brown, A. W.: cf. Bronstein....376
Brown, S. S.: cf. Radwin.....501
Brouha, L. (Deselin): Effect of vasectomy on the testis in rats and rabbits .....226
— cf. Heymans .....122
Brown, M. G.: cf. Sawyer.....745
Brownell, K. A.: cf. Pucher.366, 728
Bujard, E. (Ickowicz): Staining the anterior lobe of the hypophysis with Schiff's reagent.230
Burch, John C.: cf. McClellan...321
Burns, R. K. (Buyse): The effect of an extract of the mammalian hypophysis upon the reproductive system of immature male salamanders after metamorphosis .....491
Burr, H. S.: cf. Smith.....409
Burtness, H. I.: cf. Gray.....549
Butler, R. W.: cf. Mimpriss.....375
Butts, J. S. (Deuel): The sexual variation in carbohydrate metabolism; the metabolism of diacetic acid in fasting rats and guinea pigs .....236
Buyse, A.: cf. Burns .....491

Cameron, A. T.: Recent advances in endocrinology .....216
Cammidge, P. J.: Heredity as a factor in the etiology of diabetes mellitus .....370
Campbell, E. H.: The relationship between status lymphaticus and the suprarenal glands .....105
de Candia, S.: Influence of the pineal gland extract on calcium metabolism .....244
Canelo, C. K. (Lisser): A case of diabetes insipidus .....729
——Two cases of childhood myxedema. Reported for purpose of emphasizing importance of bone-age studies ..... 21
Cannavò, L.: Chronic abdominal splanchnopathy and diabetes mellitus .....499
Canzanelli, A. (Segal and Rapport): The utilization of the calorigenic action of diiodothyronine and thyroxine in muscular exercise .....742
Capper, A. (Schless): The thymus gland and thymic symptoms; an investigation of 1074 new-born babies .....503
Cardoso, D. M.: Relation between the hypophysis and sexual organs of fishes .....730
Carmer, M. E.: cf. Pucher.366, 728
Castellengo, L.: cf. Rojas.....497
del Castillo, E. B.: Gonad-stimulating action of pituitary from adrenalectomized rats .....106
— Gonad-stimulating or thyroid-stimulating action of the hypophysis of adrenalectomized rats .....730
— Thyroid-stimulating action of pituitary from adrenalectomized rats .....106

del Castillo, E. B. (Leloir and Novelli): Influence of cortical adrenal extract on endocrine glands ..... 106
Catchpole, H. R. (Cole): The distribution and source of oestrin in the pregnant mare..... 608
— (Lyons): The gonad-stimulating hormone of pregnant mare ..... 608
Cavanaugh, L. A.: Shelton..... ..... 370, 498, 543
Cemil, S.: cf. Leriche ..... 375
Chamelin, I. M.: cf. Harrow.... 232
Charvat, J. (Silink): Contribution to the problem of Basedow's asynamia ..... 505
Charipper, H. A.: cf. Haterius.. 673
Cheney, W. F.: Addison's disease; report of case treated by eschatin ..... 479
Chester, W. (Kugel): Lipoid-granulomatosis (type, Hand-Schüller-Christian); report of a case ..... 491
Chew, W. B.: cf. Stetson ..... 120
Chiba, T.: The carbohydrate metabolism in hyperthyroidism and in simple goiter; influence of operation ..... 377
Clark, G. A.: The influence of the vagus nerves on the secretions of insulin ..... 237
Clark, Helen M.: A prepubertal reversal of the sex difference in the gonadotropic hormonal content of the pituitary gland of the rat ..... 615
— A sex difference in the change in potency of the anterior pituitary lobe following bilateral castration in newborn rats ..... 616
Clark, J. H.: cf. Rowntree..... 740
Clark, R. J.: cf. Lerman..... 379
Clauberg, C.: Exact testing of the specific hormone of the corpus luteum. (Supplemental note on the luteinizing hormone in the infant rabbit.) ..... 115
Claus, Pearl E.: cf. Guyer. 485, 732
Cleveland, R.: cf. Wolfe..... 735
Clute, H. M. (Pilcher): Place of iodine in the treatment of goiter ..... 377
Cochrane, R. C. (Nowak): Acute thyroiditis with report of ten cases ..... 377
Cohen, M.: Leg ulcers due to thyroid dysfunction ..... 246
Cohen, Rose S.: Effect of experimentally produced hyperthyroidism upon the reproductive and associated organs of the male rat ..... 742
— cf. Weichert ..... 607
Cohen, S. J. (Eis): Lipodystrophy in adults ..... 377
Cohn, S.: Anterior pituitary-like principle in treatment of maldescent of the testicle ..... 368
Cole, H. H. (Saunders): Concentration of a gonad-stimulating hormone in blood serum of pregnant mare ..... 199
— cf. Catchpole ..... 608
Collesson, L.: cf. Drouet..... 492
Collin, R. (Drouet): The anterior hypophysis of sheep and the melanophore reaction ..... 730
Collins, D. H.: The rôle of the fats in diabetes mellitus, with a description of the haemolipokrit method for the estimation of fat in the blood serum..... 237
Collip, J. B.: Diabetogenic, thyrotropic, adrenotropic and parathyrotropic factors of pituitary. 616
— Inhibitory hormones and the principle of inverse response. 482
— (Anderson): Studies on thyrotropic hormone of anterior pituitary ..... 616
— cf. Anderson ..... 489
— cf. Pugsley ..... 745
— cf. Selye ..... 151
Colt, G. H. (Lyall): A case of osteitis deformans treated with parathormone ..... 739
Coombs, Helen C. (Pike and Searle): The relation of contracture and tetany to experimentally produced calcium deficiency in cats, with and without lesions of the cortical areas. 421
— (Searle and Pike): The changes in the concentration of inorganic calcium and phosphorus during convulsions of experimental origin, in cats, before and after thyroparathyroidectomy, with and without bromide therapy. 374
Coons, Callie M. (Marshall): Some factors influencing nitrogen economy during pregnancy ... 116
Corbett, H. V.: cf. Brookfield... 221
Corey, E. L. (Britton): The ovarian cycle and the adrenal glands ..... 106
Cornil, L. (Escarras): Experimental studies on the gonadotropic hormone in epitheliomas of the cervic uteri ..... 723
Cornwalls, L. H.: Some neurological aspects of suprarenal insufficiency ..... 719
Corpaci, A.: Histology of the islands of Langerhans and experimental modifications of the glycemia ..... 237
Cox, A. J. (Rodgerson): Action of thallium in experimental animals ..... 723
Culver, H. (Davison): Tumors of the adrenal gland; a clinical report of two cases ..... 719
Cutler, C. H.: cf. Deuel..... 363
Cutler, M. (Owen): Irradiation of the parathyroids in generalized osteitis fibrosis cystica; report of a case ..... 242

Cutting, W. C. (Rytand and Tainter): Relationship between blood cholesterol and increased metabolism from dinitrophenol and thyroid .....505
Cuyler, W. K.: cf. Walsh.....121

Dale, H. H. (Feldberg): Chemical transmitter of vagus effects to the stomach .....225
Dambrosi, R. G.: Endocrine glands in recovery of muscle glycogen after fatigue .....113
— The liver in muscle glycogen recovery after fatigue .....125
Dambrosi, R. (Leloir and Novelli): Influence of adrenocortical extract and of glucose on muscle glycogen recovery in adrenalectomized animals ....221
Darley, W. (Draper): Posterior pituitary in pyelitis; use of extract for acceleration of drainage and relief of pain.....230
Davis, B., Jr. (Luck and Miller): Differential inactivation of insulin .....622
Davis, B. L., Jr. (Van Winkle): The effect of insulin and epinephrine on the amino acid content of the blood of adrenalectomized rabbits .....479
Davis, D.: cf. Berlin .....742
— cf. Blumgart .....626
— cf. Weinstein .....254
Davis, M.: A new method for the prediction of the sex of the fetus .....226
Davis, M. E. (Hartman): Changes in vaginal epithelium during pregnancy in relation to vaginal cycle .....609
Davis, L.: The relation of the hypophysis, hypothalamus, and the autonomic nervous system to carbohydrate metabolism...736
Davison, M.: cf. Culver.....719
Davy, L. (Sevringhaus): Analysis of errors inherent in pregnancy tests based on the Aschheim-Zondek reaction .....609
De Courcy, C.: cf. De Courcy....106
De Courcy, J. L. (De Courcy and Thuss): Subtotal bilateral suprarenalectomy for hypersuprarenalism .....106
Delcourt-Bernard, E.: Experimental study of action of 3-5 diiodotyrpsine in treatment of hyperthyroidism .....505
Denison, R.: Endocrinology; a present-day summary .....606
Des Brisay, H. A.: Progressive exophthalmos following thyroidectomy .....742
Desclin, L.: cf. Brouha.....226
Deuel, H. J., Jr. (Gulick, Grunewald and Cutler): The sexual variation in carbohydrate metabolism; the comparative glycogen and fat content of the liver and muscles of rats and guinea pigs .....363
— cf. Butts .....236
— cf. Gulick .....364
Dickie, L. F. N.: cf. Thompson. .....14, 630
Diddle, A. W.: cf. Allen....305, 723
— cf. Gardner .....725
Dietel, F. G.: Inhibition of posterior pituitary hormones by serum of pregnancy .....491
Dix, A. S. (Rogoff and Barnes): Diuresis of hyperthyroidism...742
Dohrn, M.: cf. Hohlweg.....122
Dogliotti, G. C. (Nizzi Nuti): Thyroid and senescence. Structural transformations of thyroid in old age and their functional interpretation .....289
Doisy, E. A.: cf. Wade..... 77
Donaldson, J. C.: Silhouette method for comparing volume of two parts of adrenal glands in small animals .....523
Dorff, G. B.: Case of pituitary infantilism treated with commercial anterior pituitary preparations .....209
Dorfman, R. I. (Gallagher and Koch): Nature of estrogenic substance in human male urine and bull testis ..... 33
Dottrens, E.: cf. Guyénot .....618
Doubrow, S.: cf. Rathery.....239
Dragstedt, L. R.: The effect of diverting the adrenal vein blood into the portal vein on the blood sugar of dogs.....221
Drake, C.: Spontaneous late descent of the testis .....227
Draper, W. B.: cf. Darley.....230
Drouet, P. L.: Irradiation of the pituitary in arterial hypertension .....730
— (Mathieu and Collesson): Migraine and hypophysis .....492
— cf. Collin .....730
Dublin, L. I.: cf. Joslin....127, 371
Düner, L.: The effect of insulin upon body temperature .....371
Duncan, G. G. (Shumway, Williams and Fetter): The clinical application of duodenal extract.737
Dunlap, J. H.: cf. McCullagh...380
Dunlop, D. M.: The use of 2:4-dinitrophenol as a metabolic stimulant .....246
Dusková, V.: Influence of season of the year and parenteral application of thyroid gland on metabolism of the mollusc Linnaea palustris .....506
Duthoit, A.: Medullary hyperplasia of the adrenal and hypertension in old age .....719

Dye, J. A. (Kinder): A prepotent factor in the determination of skull shape .....377
Dyke, C. G.: cf. Hare.....231

Eis, B. M.: cf. Cohen.....377
Eisenberg, A. A. (Wallerstein): Pheochromocytoma of the suprarenal medulla (paraganglioma): a clinicopathologic study.....221
Eisler, B.: cf. Schittenhelm.....252
Elden, C. A.: cf. Boyd.....599
Elder, J. H.: cf. Allen.....723
Elias, H. F.: cf. McIntyre.....298
Elliott, P. C.: Exophthalmic goiter before one year of age..742
Ellis, A.: Increased carbohydrate tolerance in diabetics following the hourly administration of glucose and insulin over long periods .....499
Ellison, E. T. (Wolfe): Changes in anterior hypophysis of male albino rat after castration and experimental cryptorchism....160
— cf. Wolfe .....622
Ellsworth, R.: cf. Harrop.....360
Elmer, A. W.: Di-iodotyrosine and thyroid function .....743
— (Scheps): Iodine content of blood and of urine and basal metabolic rate; their value in the diagnosis of the function of thyroid gland .....627
Emery, F. E. (Winter): The adrenotropic substance of the hypophysis as influenced by age, castration, sex and thyroparathyroidectomy .....730
Enderlein, R.: cf. v. Euler.....246
Enfield, G. S.: Pituitary-tryroid syndrome associated with calcification of the pituitary body..368
Engel, P.: A study of the physiology of the pineal gland .....502
— The occurrence in human blood of a water soluble substance producing the Allen-Doisy test .....723
— cf. Silberstein .....739
Engel, R. (McQuarrie and Ziegler): The effect of posterior pituitary substance on the mineral balance .....731
Engle, E. T.: The effect of intravenous administration of the pregnancy urine factor on the ovaries of rhesus monkeys....363
Eppinger, E. C. (Levine): The medical care of patients following total thyroidectomy.....378
Erb, I. H.: cf. Snelling.....721
Escarras, A.: cf. Cornil.....723
v. Euler, H. (Enderlein): The oxygen consumption of animal tissue after thyroxine administration .....246
v. Euler, U. S.: On the presence of "novadrenine" in suprarenal extracts .....480
Evans, H. M.: Clinical manifestations of dysfunction of anterior pituitary .....731
— The growth hormone of the anterior pituitary .....617
—(Pencharz and Simpson): On the conditions necessary for the continuous growth of hypophysectomized animals.509
— (Simpson): Reduction of the thymus by gonadotropic hormone .....740
— — The response of the gonads of immature pigeons to various gonadotropic hormones .....724
— cf. Shelton .....370, 498

Falta, W.: cf. Boller.....622, 736
Farrell, J. T., Jr.: Roentgen therapy versus surgery in the treatment of hyperthyroidism.627
Fekete, K.: Is an active hormone of the posterior pituitary present in the blood during pregnancy? .....231
Feldberg, W. (Gaddum): The chemical transmitter at synapses in a sympathetic ganglion..483
— (Minz): Occurrence of an acetylcholine-like substance in the adrenal venous blood on stimulation of the splanchnic nerves .....603
— (Minz and Tsudzimura): The mechanism of the nervous discharge of adrenaline....359
— cf. Dale .....225
Fels, E.: cf. Slotta .....729
Feresten, M.: The corpus luteum of pregnancy in relation to the anterior pituitary gland .....407
Ferguson, R. S.: Clinical evaluation of the quantitative excretion of Prolan A in teratoma testis .....231
— cf. Smith .....409
de Fermo, C.: The hypophysis and malignant tumors; the Aschheim-Zondek reaction in blastomas .....492
Fernández, R.: cf. Foglia..107, 126
Fetter, F.: cf. Duncan.....737
Figge, F. H. (Uhlenhuth): The morphology and physiology of the salamander thyroid gland; further experiments on the thyreo-activator .....246
Firor, W. M.: cf. Grollman.....223, 480, 603
Fisher, J. H.: cf. Kennedy.....123
Florentin, P.: The diverse views on the excretion of pituitary products in the case of teleost fishes .....492
— (Watrin): Histological study of the thyroid gland in the guinea pig after irradiation.247
Flossner, O. (Kutscher and Wittneben): Hormone regulation of purine metabolism .....246

Fluhmann, C. F.: The influence of the thyroid on the action of gonad-stimulating hormones...627
— The length of the human menstrual cycle .....116
— (Hoffman): Gonad-stimulating hormone in urine of a patient with a chorioepithelioma uteri .....364
— — Gonad-stimulating hormone in urine of a patient with a teratoma testis .....364
Foggie, W. E. (Montgomery): Adreno-genital syndrome; illustrative case, with especial reference to its relation to Cushing's new pituitary syndrome .....222
Foglia, V. G. (Fernández, Leloir and Novelli): Adrenal cortex and glycogen formation .....107
— (Fernández): Pancreas and muscle glycogen .....126
— — The vagi in muscle glycogen formation .....126
Foncin, A. R.: Variation of results obtained from experimental cryptorchidism in guinea pigs, depending upon the mode of operation and location of the testis in the abdominal cavity..724
Forkner, C. E.: cf. Stetson.....120
Foster, M. A. (Hisaw): Experimental ovulation and the resulting pseudopregnancy in anoestrous cats .....724
Fowler, O. S.: The anatomical and functional disturbances of the adrenal gland in general visceroptosis .....222
Fox, L. M.: cf. Rubinstein .....497
Franck, C. (Merklen): Vagotonine and its adrenalinogenic effect in asphyxia .....107
— (Merklen and Vidacovitch): Specificity of action of vagotonine on the adrenalinogenic stimulation .....107
Frank, R. T.: cf. Goldberger....227
Freeman, N. E. (Smithwick and White): Adrenal secretion in man; the reactions of the blood vessels of the human extremity, sensitized by sympathectomy, to adrenaline and to adrenal secretion resulting from insulin hypoglycemia .....108
de Fremery, P. A. (Luchs and Tausk): The internal secretion of the corpus luteum.....485
Freud, J.: Conditions of hypertrophy of the seminal vesicles in rats .....116
Freudenberger, C. B. (Billeter): Effect of spaying on body growth and organ weights of albino rat .....347
— (Howard): The absorption of estrogenic substance of pregnant urine administered orally to young rats .....725
Friedgood, H. B.: Experimental exophthalmos and hyperthyroidism in guinea pigs; clinical course and pathology .....378
— (Pincus): Studies on conditions of activity in endocrine organs. The nervous control of the anterior hypophysis as indicated by maturation of ova and ovulation after stimulation of cervical sympathetics .....710
Friedlander, Mae (Laskey and Silbert): Relation of blood volume to certain glands of internal secretion. Effect of thyroid and gonad ablation .....342
— — Studies in thrombo-angiitis obliterans (Buerger) X. Reduction in blood volume following bilateral oophorectomy .....461
Friedman, H. F. (Blumgart): Treatment of chronic heart disease by lowering the metabolic rate; the necessity for total ablation of the thyroid.....247
Friedman, Hilda (Loeb): The mitotic index of the thyroid gland in the guinea pig and rat.506
Fuchs, G. (Merklen): On the chemical individuality of vaggotonine .....107

Gabrielianz, A.: Treatment of functional uterine bleeding with extract of placenta .....503
Gaddum, J. H.: cf. Feldberg....483
Gaebler, O. H.: Action of anterior pituitary-like substance of urine on the metabolism of dogs 63
Gohar, H. A. F.: The effect of diet, insulin and thyroxine upon the adrenaline content of the suprarenal glands .....223
Gallagher, T. F.: cf. Dorfman... 33
Gannon, N. D.: Hemorrhagic disease of the thymus .....503
Garcin, R.: cf. Guillain.....732
Gardner, W. U.: Effect of ovarian hormones and ovarian grafts upon mammary glands of male mice .....656
— (Diddle, Allen and Strong): The effect of theelin on the mammary rudiments of male mice differing in susceptibility to tumor development .....725
— cf. Allen .....305
Gaunt, R.: Survival period of bilaterally adrenalectomized rats.108
Geiling, E. M. K.: The posterior hypophysis .....731
Geist, S. H.: Reaction of the mature human ovary to antuitrin-S .....609
— (Spielman): Antuitrin-S effect upon blood elements.....731

Genther, I. T.: X-irradiation of the ovaries of guinea pigs and its effect on subsequent pregnancies .....485
Gerschman, R.: cf. Marenze....619
Gey, G. O.: cf. Stone.....484
Geyelin, H. R.: Treatment of diabetes with insulin (after ten years); contrasting effect of normal and of older diabetic diets .....623
Geyer, H.: Psychic trauma in the pathogenesis of Basedow's disease .....378
Gilligan, D. R. (Abrams and Stern): Carbohydrate metabolism in human hypothyroidism induced by total thyroidectomy; the glucose tolerance curve and the fasting serum sugar concentration .....743
— cf. Abrams .....741
Gillman, J.: The cellular cycle, the Golgi apparatus and the phenomenon of reversal in the human thyroid parenchyma...743
Girard, J.: cf. Abel.....112
Giroud, A. (Leblond): Histochemical localization of vitamin C in the adrenal cortex...719
—— Vitamin C in the hypophysis .....618
Gladen, R. G.: cf. Molitch.....682
Glaser, E. (Haempel): Testing the male sex hormone with fishes .....725
Goldberg, Minnie B. (Lisser): Clinical use of emmenin (human placental extract—Collip).649
Goldberger, M. A. (Salmon and Frank): Value of Friedman test in diagnosis of intra-uterine and extra-uterine pregnancy..227
Goldbloom, A. A.: Diagnostic importance of blood volume and cardiac output studies in a borderline case of thyrotoxicosis..506
Goldemberg, L.: Effect of intravenous fluoride injections on erythrosedimentation in hyperthyroidism .....247
Golden, R. (Abbott): Relation of thyroid, adrenals and islands of Langerhans to malacic diseases of bone .....225
Goldzieher, M.: Practical endocrinology .....216
Goodwin, G. M.: The treatment of hyperthyroidism .....507
Gordon, M. B. (Kuskin): Mental retardation associated with endocrine and non-endocrine conditions .....561
— (Kuskin and Avin): Organotherapy in mental retardation associated with endocrine and non-endocrine conditions .....572
Gordon, S. (Graham): Clinical hyperthyroidism associated with a normal basal metabolic rate.743
Goss, H.: cf. Gregory .....493
Gottlieb, R.: Blood studies in hyperthyroidism .....247
Graham, E. A. (Hartmann): Subtotal resection of the pancreas for hypoglycemia .....500
Graham, R. R.: cf. Gordon.....743
Graham, W. R., Jr.: The action of thyroxine on the milk and milk fat production of cows...628
— The effect of thyroidectomy and thyroid feeding on the milk secretion and milk fat production of cows.....248
Gray, P. A. (Burtness): Hypoglycemic headache .....549
Grayzel, D. M.: Changes in the central nervous system resulting from convulsions due to hyperinsulinism .....738
Grayzel, H. G.: cf. Kramer.....738
Greene, H. S. N.: cf. Rosahn....229
Greenhill, J. P.: Trends in gynecology and obstetrics during 1933 .....483
Gregory, Jennie: Evaluation of periodical literature from standpoint of endocrinology .....213
Gregory, P. W. (Goss): The hypophyseal growth hormone and blutathione concentration; does the hormone influence the concentration with the stimulation of increase in weight?.....493
Greulich, W.: Artificially induced ovulation in the cat (felis domestica) .....116
Grey, G. O.: cf. Stone.....381
Grieshaber, H.: Relations of blood cholesterol to carbohydrate metabolism with especial consideration of diabetes mellitus .....371
Griffith, F. R., Jr.: cf. Bowen....721
— cf. Pucher .....366, 728
Groetsema, F.: cf. Marlow.....415
Grollman, A. (Firor): Studies on the adrenal; the oral administration of the cortical hormone and the use of fresh glands therapeutically .....480
—— Studies on the adrenal; the relation of the adrenal hormone to the vitamins.603
— (Firor and Grollman): The extraction of the adrenal cortical hormone from the interrenal body of fishes.....223
— cf. Howard .....109
Grollman, E.: cf. Grollman.....223
Gruber, C. M. (Moon and Sufrin): A study of the response of the heart to pitressin following the administration of thyroid extract .....447
Grunewald, C. F.: cf. Deuel.....363
Guillain, G. (Lechelle and Garcin): Polyglobulia with or without erythrosis in certain syndromes of the hypophysis and tuber cinereum .....732

Gulick, Margaret (Samuels and Deuel): The sexual variation in carbohydrate metabolism; the effect of ovariectomy and theelin administration on the glycogen content of rats.....364
— cf. Deuel .....363
Gustus, E. L.: cf. Meyer.....613
Gutman, A. B. (Swenson and Parsons): Differential diagnosis of hyperparathyroidism .....378
Guyénot, E. (Ponse and Dottrens): Isolation of the thyroid-stimulating substance of anterior pituitary extracts by digestion of the crinogenic substance by pepsin .....618
Guyer, M. F. (Claus): Induced sterility .....485
— — The Golgi apparatus in relation to vacuolation in the basophile of the anterior pituitary of castrate and of cancerous rats ...732

Haempel, O.: cf. Glaser.....725
Haines, S. F.: cf. Mussey.....250
Hamblen, E. C.: Results of preoperative administration of extract of pregnancy urine: a study of ovaries and endometria in hyperplasia of endometrium following such administrations.169
Hamburger, C.: Excretion of prolan in the urine of old women.485
— Investigation of the gonadotropic hormone in the gravid mare .....364
Hamlett, G. W. D.: cf. Wislocki..729
Hammar, J. A.: Über Wachstum und Rückgang, über Standardisierung, Individualisierung und bauliche Individualtypen im Laufe des normalen Postfotallebens. Konstitutionsanatomische Studien an Kaninchen.217
Hansman, F. S. (Wilson): Calcium and phosphorus metabolism in diseases of the thyroparathyroid apparatus .....374
Hanson, A. M.: cf. Rowntree...740
Hare, C. C. (Dyke): Roentgen therapy of pituitary tumors...231
Harris, S.: Hyperinsulinism and epilepsy .....126
Harrop, G. A. (Soffer, Ellsworth and Trescher): Studies on the suprarenal cortex; plasma electrolytes excretion during suprarenal insufficiency in the dog...360
Harrow, B. (Chamelin and Mazur): "The fat metabolism hormone" and hyperglycemia.....232
Harrow, Benjamin (Sherwin): The chemistry of the hormones.357
Hart, E. B.: cf. Kozelka.....374
Hartman, C. G.: cf. Davis.....609
— cf. Richter .....229
Hartman, F. A.: The adrenal problem .....633
Hartmann, A. F.: cf. Graham...500
Hartl, K.: Action of pitressin upon circulation and respiration .....618
Haterius, H. O. (Schweizer and Charipper): Experimental studies of anterior pituitary. III. Observations on persistence of hypophyseal transplants in anterior eye chamber .....673
Haultain, W. F. T.: The clinical use of a preparation of oestrin in the treatment of functional secondary amenorrhea; a record of 16 cases.....117
Haw, A. B.: cf. Rothbart.....722
Heidelberger, M. (Palmer): The preparation and properties of thyroglobulin .....379
Hellwig, C. A.: Histologic changes in the thyroid gland of the rabbit following injection of urine.628
Hemmingsen, A. M.: Standard metabolism of female rats before and after ovariectomy in experiments with and without narcosis .....227
Hepburn, J.: Total ablation of the thyroid gland in the treatment of angina pectoris and congestive heart failure .....743
Hermann, H. (Merklen, Santenois and Vidacovitch): Comparative oncographic studies of the action of vagotonine and of several substances of pancreatic origin .....107
Herold, J.: cf. Anselmino.....230
Herrell, W. E.: Growth and regeneration of tissue in frog tadpoles following the administration of an extract of the anterior pituitary gland .....493
Hertz, R. (Hisaw): Effects of follicle-stimulating and luteinizing pituitary extracts on the ovaries of the infantile and juvenile rabbit .....232
Herzog, P.: cf. Reiss.....111
Heydemann, E. R.: cf. Lucke...496
Heymans, C. (Bouckaert and Brouha): Perfusion of an "isolated" head alternately with blood from dog A and dog B. Hormonal influence coming from the head .....122
Higgins, R. A. (Ostlund): Insulin—its use in non-diabetic children .....623
Hill, B. H.: The early development of the thymus gland in Amia calva .....740
Himsworth, H. P.: High carbohydrate diets and insulin efficiency .....500
— Temporary visual disturbances as an initial symptom of diabetes mellitus .....623
— The physiological activation of insulin .....237
Hinglais, H.: cf. Brindeau.....608

Hinglais, M.: cf. Brindeau.....608
Hinsey, J. C.: cf. Markee.....612
Hinton, J. W. (Morton and Weeks): Experimental and clinical studies of the relationship of thyroid disease and pancreatic function .....248
Hisaw, F. L.: cf. Foster.....724
— cf. Hertz .....232
Hoctor, E. F.: cf. Werner.....368
Hoff, H. E. (Nahum): The nature of ventricular fibrillation following electric shock and its prevention by acetyl-b-methylcholine chloride .....720
— — The rôle of adrenaline in the production of ventricular rhythms and their suppression by acetyl-B-methylcholine chloride ..720
Hofbauer, J.: Necessity for caution in therapeutic use of preparations of anterior lobe of hypophysis .....732
Hoffman, J.: cf. Anspach.....607
Hoffman, M. H.: cf. Bauer.....504
Hoffmann, F. (Anselmino): Action of extracts of anterior lobe of hypophysis on calcium content of blood .....233
— cf. Anselmino .....230, 490
Hoffmann, P. E.: cf. Fluhmann.364
Hohlweg, W. (Dohrn): The relationship between the anterior pituitary and the reproductive glands .....122
Hoopes, Edith C. (King): Prolongation of pregnancy in the rat by the injection of human pregnancy urine extract .....725
Horgan, E. (Lyon): Division and ligation of superior and inferior thyroid arteries in treatment of angina pectoris; report of case.744
Horsters, H.: Clinical and experimental studies on the thyreotropic hormone of the anterior pituitary .....233
— Differential diagnosis of diabetes by constitutional signs.126
Hoskins, Margaret M.: The relation of diet and serum-calcium to tetany in the parathyroidectomized rat .....453
Houssay, B. A. (Biasotti and Rietti): Diabetogenic activity of anterior pituitary extract .....233
— (Biasotti and Mazzocco): Weight of adrenals in dogs after hypophysectomy and lesion of the tuber cinereum.108
— (di Benedetto): Hyperglycemic action of posterior pituitary lobe extract .....123
— — The adrenals, liver, pancreas and vegetative nervous system in posterior pituitary extract hyperglycemia .....113
— (Lascano-González): Spleen in hypophysectomized dogs ...493
Houssay, B. A. (Mazzocco): Adrenaline content of the adrenals in hypophysectomized animals.223
— (Sammartino): Histological aspects of adrenals in hypophysectomized dogs .....108
— — Parathyroids in pituitary and pancreatic insufficiency .....113
Howard, Evelyn (Grollman): The effect of extracts of the adrenal cortex on growth and the reproductive system of normal rats, with particular reference to intersexuality .....109
Howard, P. M.: cf. Freudenberger .....725
Hrubetz, M. Caroline: The assay of insulin and the blood sugar level .....238
Hu, C. K.: cf. Rosahn.....229
Huberman, J. (Israeloff): Therapeutic value and effects of amniotin in gonorrheal vaginitis in children .....365
Husák, St.: The chemistry of the suprarenal medulla .....603
Hutt, F. B. (Boyd): Idiopathic hypoparathyroidism and tetany in the fowl .....398
Hutton, J. H. (Brandon, Read and Nerancy): Endocrine dyscrasias and mental disorders..483
— — Endocrine dyscrasias and mental disorders; preliminary report .....114
Hurxthal, L. M.: Blood cholesterol and hypometabolism; suprarenal and pituitary deficiency, obesity and miscellaneous conditions .....234

Ickowicz, M.: cf. Bujard.....230
Illingworth, R. E.: cf. Robson...728
Ingram, W. R. (Barr's): Diuresis associated with direct stimulation of the hypophysis .....432
Irsigler, F. G.: Effect of compound solution of iodine on hyperthyroidism and dysthyroidism .....507
Irving, J. T.: The effect of insulin and other factors on iodoacetate hyperglycemia .....238
Israeloff, H. H.: cf. Huberman..365

Jagic, N.: Symptoms and treatment of hyperthyroidism .....744
Jamin, F.: Hypophyseal plethora (Cushing's disease; pituitary basophilism) .....732
Janssen, S. (Loeser): Action of anterior pituitary lobe extract upon the thyroid .....234
Jenkins, R. H.: cf. Aberle.....363
John, H. J.: Further observations on treatment of hyperinsulinism with insulin .....689
Johns, G. A.: cf. Werner.....368
Johnson, J. B.: cf. Selle..... 97

Jones, C. R.: Insulin in treatment of peptic ulcer .....500
Jones, Mildred Elinor: The effect of varying levels of iodine intake on the thyreoglobulin content of the thyroid gland.....379
de Jongh, S. E. (Laqueur): Recovery of testicles injured by menformon, spontaneously or through action of gonads .....610
Jores, A.: The hormone action of the hypophysis on the adrenals.234
Joslin, E. P.: The menace of diabetic gangrene .....738
— (Dublin and Marks): Studies in diabetes mellitus; characteristics and trends of diabetes mortality throughout the world .....371
— — Studies in diabetes mellitus; its incidence and the factors underlying its variations .....127
— cf. White .....373
Jung, A.: cf. Leriche.....375
Jurgens, G. H.: cf. Banyal.....370

Kalk, H.: Paroxysmal hypertension; blood pressure crises and tumor of suprarenal medulla..720
Kampmeier, R. H.: cf. Black....504
Kanter, A. E. (Bauer and Klawans): New biologic test for hormones in pregnancy urine..610
— cf. Melnick .....118
Karplus, J. P. (Peczinik): The influence of the hypothalamus on pituitary activity. Second communication .....493
Kazakevich, M. A.: Functional disturbance of thyroid gland in chronic industrial mercurialism .....507
Kearney, R. D.: cf. Kunde.....128
Kearns, J. E.: cf. McCullagh....532
Kemp, W. N.: Status lymphaticus; an adrenal-thyroid syndrome..148
Kendall, E. C.: Chemical studies of the suprarenal gland.....603
Kennedy, F. S. (Fisher): Syphilis of the pituitary body; a case report with review of literature.123
Képinov, L.: Rôle of the hypophysis in the hyperglycemia action of the blood of the diabetic dog.619
Kerley, C. G.: Fatigue in school children .....507
Khvoroff, B.: On the question of the endocrine pathogenesis of the fibrous osteo-dystrophies..242
Kinder, F. S.: cf. Dye.....377
King, A. G.: The Friedman rabbit ovulation test in differential obstetric diagnosis .....365
King, Jessie L.: cf. Hoopes.....725
Klafter, E.: Symptomatology and microscopic anatomy of granulosa cell tumors of ovary.....117
Klawans, A. H.: cf. Kanter.....610
Klein, J.: The correlation of mineral metabolism and the vegetative nervous system in thyroid disease .....628
— The effect of calcium on the storage of colloid in the thyroid gland .....249
Klein, J. D.: cf. Pucher ....366, 728
Klein, L.: cf. Klein .....118
Klein, M. (Klein): Note on the sensitiveness of uterine muscle from rabbits to the hormone of the posterior lobe of the hypophysis. Variation in the course of the ovarian cycle and in the course of pregnancy....118
Kleine, H. O.: Special position of tubular ovarian blastomas (arrhenoblastomas) as regards morphology and hormone function .....726
Kleiner, I. S. (Weisman and Barowsky): Investigation of new biologic test for hormones in pregnancy urine .....610
— cf. Weisman .....395
Koch, F. C.: cf. Dorfman..... 33
Kohler, L. H.: cf. Werner.....368
Kohn-Speyer, A.: cf. Simpson...361
Kolliner, Martha: Influence of different diets on the nucleoplasma relation of the cells of the suprarenal gland of the rat .....481
Konschegg, T.: Adrenaline, adrenal glands and blood pressure.109
Korenchevsky, V.: cf. Simpson..361
Kozelka, F. L. (Hart and Bohrstedt): Growth, reproduction and lactation in the absence of the parathyroid glands .....374
Kramer, B. (Grayzel and Solomon): Chronic hypoglycemia in childhood .....738
Kraus, E. J.: Which cells of the human hypophysis form the pituitary sex hormone in absence of pregnancy?.....123
Kroc, R. L. (Martin): The relation of bilateral suprarenalectomy and subsequent therapy on the body weight and oestrual cycle of the albino rat.....360
Kugel, V. H.: cf. Chester.....491
Kugelmann, B.: Epinephrine secretions in insulin hypoglycemia and in Pal's vascular crises.223
Kun, H.: Psychic feminization and hermaphrodization of males by means of female sex hormone .....486
— cf. Steinach .....488
Kunde, M. M. (Becker, Saruk and Kearney): Effect of pancreatectomy on glutathione content of blood .....128
— cf. Larrain .....109
Kunstadter, R. H. (Robins): The effect of pregnancy urine upon hypopituitarism in the male..494

Kuré, K. (Nakaya, Murakami and Okinaka): Hyperadrenalinemia and its treatment with atropin .....603
— (Tanishima and Okinaka): The spinal parasympathetic; influence of the spinal parasympathetic upon the internal secretion of the pancreas.128
Kurzrok, R.: cf. Riley.....118
Kuskin, L.: cf. Gordon....561, 572
Kutscher, F.: cf. Flossner.....246
Kutz, R. L. (McKeown and Selye): Effect of salt treatment on certain changes following adrenalectomy .....720

La Barre, J. (Ledrut): Viability of totally pancreatectomized dogs .....623
— cf. Zunz .....244
Lacassagne, A.: Action of folliculin on the development of the genital organs of male rabbits.611
— Action of folliculin on the fecundity of male rabbits ....611
— (Nyka): Note on a cause of mammary adeno-carcinoma; study on folliculin in colostrum .....611
— — Procedure for the destruction of the hypophysis of the rabbit by radium ...619
La Grutta, L. (Avellone): Effect of thymus extracts on survival after adrenalectomy .....245
Lahey, F. H.: Thyroid disease...379
Landau, A. (Wajsman): Clinical studies in diabetes insipidus. First report. Diabetes insipidus, water and salt regulation and their behavior under the influence of Novasurol and pituitary extracts .....494
Lands, A. M. (Stoland): Size and structure of thyroid gland of cat after administration of irradiated ergosterol .....701
Lane, C. E.: Some influence of oestrin on the hypophyseal-gonad complex of the immature female rat .....726
— The follicular apparatus of the ovary of the immature rat and some of the factors which influence it .....611
Lange: Observations on the results of castration .....486
Langernon, L. (Paget and Ledieu): Glandes endocrines. Métabolisme de l'eau et diurèse; les oedèmes endocrines .....358
Langston, W. C. (Robinson): Castration atrophy. A chronological study of uterine changes following bilateral ovariectomy in albino rat ..... 51
— cf. Robinson .....441
Lanz, O.: Correlation between the clinical and the histological picture of goiter .....629
Laqueur, E.: cf. de Jongh.....610
Larrain, A. R. (Roberts and Kunde): Formation of an epinephrin-like substance in autolyzing adrenal glands .....109
Lascano-Gonzalez, J. M.: Accessory adrenals in white rats....480
— cf. Houssay .....493
Laskey, N.: cf. Friedlander.342, 461
Lassen, H. C. A. (Brandstrup): Occurrence of follicle stimulating and luteinizing factors of anterior pituitary-like principle in urine of women castrated by roentgen treatment or by operation .....494
Latta, J. S. (Benner): The hemopoietic disturbances induced in the albino rat by administration of thyroxin .....249
Lauber, H. J.: Experimental researches concerning the relation of the internal secretory glands to wound healing.....114
Lauda, E.: Internal secretion of the spleen .....245
Laughton, N. B. (Macallum): Relation of the duodenal mucosa to the internal secretion of the pancreas .....238
Leblond, C. P.: cf. Giroud..618, 719
Lechelle, P.: cf. Guillain.....732
Ledieu, J.: cf. Langeron.....358
Ledrut, J.: cf. La Barre J.....623
Lee, M. O. (Schaffer): Anterior pituitary growth hormone and the composition of growth....123
Lehmann, G. A.: cf. Blum.....376
Leistner, W.: cf. Blum.....376
Leloir, L. F.: Rôle of the adrenals in nicotin hyperglycemia.....111
— (Novelli): Biological assay of cortico-adrenal hormone by means of a morphine resistance test .....360
— cf. del Castillo .....106
— cf. Dambrosi .....221
— cf. Foglia .....107
Leonard, S. L.: A study of the pituitary factor increasing the ovarian weights of immature rats when injected in combination with pregnancy urine....369
— (Smith): Responses of the reproductive system of hypophysectomized rats to injections of pregnancy urine extracts; the female .....369
— — The hypophyseal-like qualities of the gonadotropic principle found in the urine of certain individuals .....228
— cf. Smith .....621
Leopold, J. S.: cf. Brem.....226
Leriche, R. (Jung and Cemil): Investigations of the action of parathyroid extract on the skeleton .....375
Lerman, J. (Clark and Means): Further observations on the heart in myxedema .....379

Lerman, J. (Salter): Maintenance requirement of myxedema patients; clinical and chemical assay of commercial thyroid preparations .....629
— cf. Means .....181, 629
Leulier, A.: cf. Mouriquand.....361
Leventhal, M. L. (Saphir): Chorionepithelioma, early diagnosis by the quantitative determination of anterior pituitary-like principle from the urine of pregnancy .....495
Levin, E.: Effect of adrenaline on circulating blood volume.....480
Levine, S. A.: cf. Eppinger.....377
Lewis, J. T. (Ludueña): Action of extract of Trichocereus candicans and its active principles hordenin and salts of p-oxyphenylethyltrimethylammonium on adrenal secretion .....110
— — Reaction of eye to sympathicomimetic drugs after section of the pre- and postganglionary sympathetic fibers .....481
Lewis, R. M.: A study of the effects of theelin on gonorrheal vaginitis in children .....612
Lhermitte, J. (Pagniez): The pseudo-hypophyseal infundibulotuberian syndrome .....495
Lingley, J. R.: cf. Baird.....721
Lipschütz, A.: Comparative luteinizing capacity of urine of pregnancy and of menopause.. 42
— Experimental change of the gonadotropic equilibrium of the anterior hypophysis ...619
Lisser, H.: Successful ovarian therapy in case of severe preadolescent eunuchoidism .....284
— cf. Canelo .....729
— cf. Goldberg .....649
— cf. Player .....361
Loeb, L.: Estrogenic hormones and carcinogenesis .....726
— cf. Aff .....489
— cf. Friedman .....506
— cf. Max .....329
Loeb, R. F. (Atchley): The significance of salt in the treatment of Addison's disease ....481
Loeser, A.: Anterior pituitary extract and iodine content of the thyroid .....234
— Artificial production of menstruation with ovarian hormones in cases of primary and secondary amenorrhea.486
— cf. Janssen .....234
Loewenberg, S. A.: Five types of hypopituitary endocrinopathies.619
Long, M. Louisa: cf. Shelton...543
de Lorimier, A. A.: cf. Moore...624
Loumos, S.: A study of the relation of dietary fats to action of thyroid extracts in rats .....250
Louria, H. W.: cf. Rabinovitch..383
Louros, N.: Therapy of dysfunctions of the ovary and the anterior lobe of the hypophysis....487
Lovas, L.: cf. Balo .....236
Lower, W. E.: The exocrine and endocrine functions of the testes .....228
Luchs, A.: cf. de Fremery.....485
de Lucia, P. (Torella): Utilization of galactose and effects of insulin .....501
Luck, J. M.: cf. Davis.....622
Lucke, H.: Anti-insulin hormone of anterior pituitary .....234
— (Heydemann and Berger): The effect of operative procedures on the anterior lobe of the pituitary on the metabolism of depancreatized dogs .....496
Luckner, W. G.: cf. Sherwood...746
Ludueña, F. P.: Effect of cocain on the action of Trichocereus candicans and its active principles candicin and anhalin and on the excitability of the splanchnic .....111
— Effect of spartein on the action of the extract of Trichocereus candicans and its active principles, anhalin and candicin and on the excitability of the splanchnic .....110
— Effect of yohimbin on the action of extract of Trichocereus candicans and its active principles, anhalin and candicin and on the excitability of the splanchnics .....110
— cf. Lewis .....110, 481
Lyall, A.: cf. Colt.....739
Lyon, J. A.: cf. Horgan.....744
Lyons, W. R.: cf. Catchpole.....608

Macallum, A. B.: cf. Laughton..238
MacBryde, C. M.: Insulin resistance in diabetes mellitus.....239
MacGregor, T. N.: cf. Robson...728
Mack, H. C. (Agnew): A comparison of the Aschheim-Zondek and the Friedman tests in normal and abnormal pregnancy; an analysis of the literature and a report of the results obtained in 1112 cases .....365
Magdalena, A.: Compensatory hypertrophy of thyroid in hypophysectomized toads .....508
Mahoney, W.: Hypoglycemia hypophysiopriva .....235
Mainzer, F.: Problems in treatment of diabetes insipidus with extract of posterior lobe of hypophysis .....732
Makarova, S. O. (Tutayev): The functional changes of the gonads under the influence of the toxins acting on the nervous system .....727
Mandel, J.: An experimental study of ovarian irradiation and transplantation in the rat.....612

Manzini, C.: On the presence of a diuretic hormone in the mucous membrane of the intestines .....484
Marble, A.: Diabetes and cancer.623
— cf. Root .....239
March, B.: cf. Sisson.....389
Marenzi, A. D.: Lactic acid in blood of hypophysectomized dogs .....620
— (Gerschman): Minerals of plasma in hypophysectomized dogs .....619
Markee, J. E. (Hinsey): A case of probable superfetation in the cat .....612
Marks, H. H.: cf. Joslin ...127, 371
Marlow, H. W. (Groetsema): The effect of injection of residual ovarian extracts .....415
Marshall, Gladys B.: cf. Coons...116
Marshall, P. G.: cf. Wiesner....121
Martin, S. J.: cf. Kroc.....360
Martins, T.: Method for staining the anterior lobe of the hypophysis .....620
— On the humoral exchanges between parabiotic animals; the question of the passage of estrin from normal to castrated animals .....613
Marx, J.: Effect of parathyroid extract on blood coagulability..243
Mathieu, L.: cf. Drouet.....492
Max, P. (Schmeckebier and Loeb): Acquired resistance to thyroid-stimulating and pseudolutenizing hormone of cattle anterior pituitary .....329
Mazur, A.: cf. Harrow.....232
Mazzocco, P.: cf. Houssay..108, 223
McCahey, J. F.: Newer aspects of hypogonadism in the male....487
McClellan, G. S. (Phelps and Burch): Endometrial studies.321
McCullagh, D. R. (Walsh): Experimental hypertrophy and atrophy of the prostate gland..466
— cf. Walsh .....121
McCullagh, E. P. (Dunlap): The blood picture in hyperthyroidism and in hypothyroidism....380
— (Kearns): Relationship between parathyroid glands and sex hormones in tetany.532
— (Renshaw): Effects of castration in adult male .....366
McEuen, C. S. (Thomson): The effect of hypophysectomy on the growth of the Walker rat tumor.496
McGavack, T. H. (Shepardson): Xanthoma accompanied by hypercholesterolemia, occurring in an otherwise normal individual, and in an individual with acromegaly and diabetes .....722
McIntyre, A. R. (Sievers and Elias): Effects of pituitrin, pitressin and pitocin upon copper-reducing substances in serum and urine of dogs .....298
McKee, H. S.: cf. Rabinowitch..501
McKeown, T.: cf. Kutz.....720
McKittrick, L. S.: Abdominal symptoms with or without abdominal lesions in diabetic acidosis .....239
McManus, Mary A.: cf. Rowe...229
McPhail, M. K.: The effect on the reproductive organs of the rat of prolonged treatment with ovary-stimulating substances..228
McQuarrie, I.: cf. Engel.....731
McQueen-Williams, M.: Necessary concurrence of thyroid in the marked adrenal cortical hypertrophy following beef anterior pituitary implants .....733
McTiernan, Claire: cf. Meyer...606
Meaker, S. R.: Human sterility. Causation, diagnosis and treatment. A practical manual of clinic prodecure .....218
Means, J. H. (Lerman): Action of iodine in thyrotoxicosis, with especial reference to refractoriness .....629
— — Hormonic symptomatology of thyroid: to what extent is it explicable on basis of altered metabolic rate.181
— cf. Lerman .....379
Meigs, J. V.: Prolan in the treatment of abnormal uterine bleeding .....727
de Meio, R. H.: Non-protein blood sulphur and the adrenal glands.360
Melnick, P. J. (Kanter): Theca cell tumors of the ovary.....118
Menninger, W. C.: Psychological factors in the etiology of diabetes .....624
Merklen, L.: cf. Franck.....107
— cf. Fuchs .....107
— cf. Hermann .....107
Messimy, R.: cf. Binet.....622
Meumann, E.: Psychoses and tumors of the pituitary body....124
Meyer, O. O. (McTiernan): A study of the relationship of internal secretions to the metabolism of malignant tumor tissue .....606
Meyer, R. K. (Gustus): Refractoriness to ovarian stimulation in the rhesus monkey .....613
Migliovacca, A.: Luteinizing hormone in suprarenal cortex.....224
Miller, A. G.: cf. Davis.....622
Miller, C. O.: cf. Siehrs.....482
Mimpriss, T. W. (Butler): A case of hyperparathyroidism with certain unusual features .....375
Minz, B.: cf. Feldberg.....359, 603
Moehlig, R. C. (Murphy): Paget's disease (osteitis deformans)...515
Moersch, F. P.: cf. Rynearson..240
Molitch, M. (Gladen and Pigott): Laurence-Moon-Biedl syndrome. Report of three cases .....682
Montgomery, G. L.: cf. Foggie..222
Moon, V. H.: cf. Gruber.....447

Moore, C. R.: The testis hormone. 613
— (Simmons, Wells, Zalesky and Nelson): On the control of reproductive activity in an annual breeding mammal (Citellus tridecemlineatus). 613
Moore, J. J. (de Lorimier): Roeontgenographic studies of parathyroid deossification .... 624
Moreau, J.: Hypophyseal dysostosis ..... 124
Morgenstern, V.: cf. Wachholder. 605
Moricard, R.: The existence in the interstitial tissue of the mouse ovary of cells with physiological properties similar to those of the interstitial cells of the testis ..... 118
Morton, P. C.: cf. Hinton..... 248
Moschini, A.: Muscular phophagen following complete destruction of frog suprarenals ..... 720
Mouriquand, G. (Leulier and Revol): Potential adrenaline. 361
Muller, K.: cf. Wohlenberg..... 502
Mulvery, B. E.: cf. Netherton... 744
Munson, P. L.: cf. Sontag..... 367
Murakami, S.: cf. Kuré ..... 603
Murphy, J. M.: cf. Moehlig..... 515
Mussey, R. D. (Haines): Amenorrhea and oligomenorrhea associated with low basal metabolic rates ..... 250
Mussio-Fournier, J. C.: A pseudonephritic form of thyroid deficiency with kidney changes of the same origin ..... 250
— Keratoderma of the soles of the feet and palms of the hands in a case of hypothyroidism cured by thyroid extract ..... 629
Myerson, A. (Berlin): A case of postencephalitic Parkinson's disease treated by total thyroidectomy ..... 251

Nadler, S. B.: cf. Thompson. 14, 630
Nahum, L. H.: cf. Hoff..... 720
Nakagawa, I.: Growth and basal metabolism; basal metabolism of pre-school children..... 484
Nakaya, T.: cf. Kuré..... 603
Nelson, W. O.: Concerning the anterior pituitary-gonad interrelations ..... 187
— Effect of oestrin and gonadotropic hormone injections upon hypophysis of the adult rat ..... 620
— (Overholser): Effect of oestrin injections upon experimental pancreatic diabetes in the monkey ..... 624
— Studies on the physiology of lactation; the assay of the lactogenic hormone of the anterior hypophysis ..... 496
— cf. Moore ..... 613
Nerancy, J. T.: cf. Hutton..114, 483
Netherton, E. W. (Mulvey): Circumscribed myxedema ..... 744
Neufeld, L.: cf. Balo..... 236
Newcomb, A. L.: Diabetes mellitus in children ..... 501
Newman, J. L.: The thyroid gland in mental deficiency; a histological study ..... 744
Newson, Dora A.: cf. Sprague.... 739
Nixon, N. K.: Obesity in children. 484
Nizzi Nuti, G.: cf. Dogliotti..... 289
Norlin, G. (Welin): Pineal gland and development ..... 739
Novak, E.: Anterior pituitary and anterior pituitary-like substance; therapeutic applications ..... 620
Novelli, A.: cf. del Castillo..... 106
— cf. Dambrosi ..... 221
— cf. Foglia ..... 107
— cf. Leloir ..... 360
Nowak, S. J. G.: cf. Cochrane.... 377
Nyka, W.: cf. Lacassagne..611, 619

Odiorne, J. M.: The effects of the pituitary hormones on the melanophores of fishes..... 620
Ohler, W. R. (Abramson): The heart in myxedema ..... 251
Okinaka, S.: cf. Kuré.....128, 603
Okkels, H.: Cellular function and the Golgi apparatus; renal and thyroid secretory activity..... 251
Ostlund, E. O.: cf. Higgins..... 623
Overholser, M. D. (Allen): Atypical growth induced in cervical epithelium of the monkey by prolonged injections of ovarian hormone combined with chronic trauma ..... 727
— cf. Nelson ..... 624
Owen, S. E.: cf. Cutler..... 242
Owings, J. C.: cf. Stone....381, 484

Paget, M.: cf. Langernon..... 358
Pagniez, P.: cf. Lhermitte..... 495
Palmer, R. S.: cf. Baird..... 721
Palmer, W. W.: Metabolism in hyperthyroidism and hypothyroidism ..... 508
— cf. Heidelberger ..... 379
Papanicolaou, G. N. (Shorr): Action of ovarian follicle hormone in ovarian insufficiency in women as indicated by vaginal smears ..... 727
Pardee, I. H.: Basophilic syndrome of the pituitary; pituitary basophilism (Cushing)... 235
Parenti, G. C.: The gonads in the development and larval metamorphosis of tadpole; the action of the serum of castrated male animals ..... 118
Parfonry, J.: Tumors of the hypophyseal region treated by radiotherapy ..... 369
Parhon-Stefanescu, C.: Action of the female sex hormone on the interstitial cells of the ovary..614
Parker, G. H. (Porter): The control of the dermal melanophores in elasmobranch fishes ..... 733

Parkins, W. M.: cf. Salant.243, 244
— cf. Swingle.....224, 362, 603
Parsons, W. B.: cf. Gutman.....378
Paskind, H. A.: cf. Reese.....478
Patton, Helen: cf. Starr.....615
Payne, L. F.: cf. Scott.....615
Pearson, J. R.: cf. Rabinovitch..383
Peczinik, O.: cf. Karplus.....493
Peller, S. (Zimmerman): Environment constitution and menarche .....614
Pemberton, J. deJ.: The rational treatment of hyperthyroidism..251
Pencharz, R. I.: cf. Evans.....509
Perla, D.: Hemorrhagic changes in suprarenal cortex of adult rats following pituitarectomy..733
Pfeiffer, C. A.: Origin of functional differences between male and female hypophyses .....733
Pfiffner, J. J.: cf. Swingle..224, 362
Phelan, G. W.: A defeminizing tumor .....228
Phelps, Doris: cf. McClellan....321
— cf. Wolfe .....735
Pighini, G.: Action of anterior pituitary lobe and tuber cinereum extracts on seminal vesicles .....235
— Anterior pituitary hormone content of hypothalamus ...293
Pigott, A. W.: cf. Molitch.....682
Pike, F. H.: cf. Coombs....374, 421
Pilcher, L. S.: cf. Clute .....377
Pincus, G.: cf. Friedgood.....710
— (White): On the inheritance of diabetes mellitus; further analyses of family histories .....372
— cf. White .....373
Pinkston, J. O.: Peripheral circulation during experimental fever .....604
Pittman, H. S.: End results in exophthalmic goiter; patients treated in pre-iodine days.....380
Player, L. P. (Lisser): Adrenal sexual precocity; caused by tumors of adrenal cortex; case report of boy 5 years of age....361
Pollak, L.: Pathogenesis of diabetes mellitus .....372
Ponse, K.: cf. Guyénot .....618
Porter, Helen: cf. Parker.....733
Prendergast, J.: cf. Abbott.....741
Priestley, J. T.: cf. Rankin.....243
Prüsener, L.: Hypophyseal cachexia in a child.....124
Pucher, G. W. (Griffith, Brownell, Klein and Carmer): Studies in human physiology, urine chemistry; composition of 24-hour and short-period, basal excretion; correlations between urine constituents and menstrual and seasonal variation .....728
— — Studies in human physiology. VI. Variations in blood chemistry over long periods of time, including those characteristic of menstruation .....366
Pugsley, L. I. (Anderson and Collip): Effect of thyreotropic hormone and of desiccated thyroid upon creatine and creatinine excretion .....745
— cf. Andreyev .....242

Quadras-Bordes, M. L.: Metrorrhagias of ovarian origin treated with insulin .....229
Quigley, J. M.: Preventive treatment of goiter in schools .....630
Quiney, J. J.: Hyperthyroidism treated by irradiation .....630

Rabinowitch, I. M.: Prediction of basal metabolism from pulse pressure and pulse rate .....722
— (Ritchie and McKee): A statistical evaluation of different methods of the detection of arteriosclerosis in diabetes mellitus .....501
Rabinovitch, J. (Pearson and Louria): A clinico-pathological and experimental study of the functional-structural relationship of goiter .....383
Radwin, L. S. (Brown): Insulin in undernourished non-diabetic children; attempt to induce gain in weight .....501
Rankin, F. W. (Priestley): Tumors of the parathyroid gland; report of two cases .....243
Rapport, D.: cf. Canzanelli .....742
Rasmussen, A. T.: The weight of the principal components of the normal hypophysis cerebri of the adult human female .....621
Rathery, F. (Doubrow): Note on the histo-chemistry of the arteries from diabetics .....239
Read, C. F.: cf. Hutton....114, 483
Reese, H. H. (Paskind and Sevringhaus): Year-book of neurology, psychiatry and endocrinology. (Review) .....478
Reid, C.: cf. Banerji.....259, 479
Reilly, W. A.: Atypical familial endocrinopathy in males with a syndrome of other defects.....639
Reiss, M. (Herzog): Studies on the function of the adrenal cortex; interrenal bodies and adrenal cortex .....111
— cf. Winter .....111
Renshaw, J. F.: cf. McCullagh..366
Revol, L.: cf. Mouriquand.....361
Rich, M. L.: cf. Stetson.....120
Richter, C. P. (Hartman): The effect of injection of amniotin on the spontaneous activity of gonadectomized rats .....229
Riddle, O.: Contemplating the hormones ..... 1
— Lactogenic factor of the pituitary .....734

Riddle, O. (Braucher): Studies on the physiology of reproduction in birds; body size changes in doves and pigeons incident to stages of the reproductive cycle. 121
Rietti, C. T.: cf. Houssay. . . . . 233
Riley, Gertrude A.: cf. Rowe. . . . 229
Riley, H. A. (Brickner and Kurzrok): Abnormal excretion of theelin and prolan in patients suffering from migraine; preliminary report . . . . . 118
Riseman, J. E. F.: cf. Berlin. . . . 742
— cf. Blumgart . . . . . 626
Ritchie, W. L.: cf. Rabinowitch. 501
Roberts, R. G.: cf. Larrain. . . . . 109
Robins, L. S.: cf. Kunstadter. . . 494
Robinson, B. L. (Langston): Castration atrophy and theelin. . . . 441
— cf. Langston . . . . . 51
Robson, J. M.: The significance of the luteal action on the uterine muscle in the maintenance of gestation and initiation of parturition . . . . . 487
— (MacGregor, Illingworth and Steere): Urinary excretion of oestrin administered under experimental conditions and after the menopause. . . 728
Rock, J.: Artificial menstruation; effect of female sex hormones in amenorrhea . . . . . 614
— Changes in endometrium after female sex endocrine therapy: A consideration of effect of Antuitrin-S in human subjects . . . . . 269
Rodgerson, Eleanor B.: cf. Cox. . 723
Rogoff, J. M.: cf. Dix. . . . . 742
Rojas, P. (Castellengo and Silva Alcorta): Pituitary of Jenynsia lineata . . . . . 497
Ronsheim, J.: Diabetes and pregnancy . . . . . 119
Rony, H. R.: The rôle of the hypophysis in thyroid syndromes. 630
Root, H. F.: Association of diabetes and tuberculosis . . . . . 373
— (White and Marble): Abnormalities of calcium deposition in diabetes mellitus. . . . 239
Rosahn, P. D. (Greene and Hu): Observations on the treatment of infertile rabbits with Antuitrin "S" . . . . . 229
Rosenfeld, L.: cf. Wolfe. . . . . 622
Rosof, J. A.: An experimental study of the histology and cytology of the parathyroid glands in the albino rat . . . . . 375
Ross, L. I. (Tomasch): Hyperinsulinemia secondary to an adenoma of the pancreas. . . . . 373
Rossmeisl, E.: cf. Aub. . . . . 242
Rothbart, H. B. (Haw): Basal metabolism in children of normal and subnormal intelligence with blood cholesterol and creatinine values . . . . . 722
Rowe, A. W.: Endocrine studies; the gaseous metabolism of some dwarfs and giants . . . . . 362
— (McManus and Riley): The toxaemias of pregnancy; the respiratory metabolism . . . . 229
— (Van Waters): Physical associations in adults with behavior problems . . . . . 129
Rowntree, L. G. (Clark, Hanson and Steinberg): The biologic effects of thymus extract (Hanson); accruing acceleration in growth and development in successive generations of rats under continuous treatment with thymus extract . . . . . 740
Rubinstein, H. S.: The difference of response of the pituitary glands of male and female albino rats treated with the growth hormone . . . . . 734
— (Fox): The water and solid content of the brains of the albino rats treated with the growth hormone . . . . . 497
Ruschig, H.: cf. Slotta . . . . . 729
Rynearson, E. H. (Moersch): Neurologic manifestations of hyperinsulinism and other hypoglycemic states . . . . . 240
Rytand, D. A.: cf. Cutting. . . . . 505

Sá, P.: Chorio-epithelioma and the Aschheim-Zondek test; case . . . . . 235
Saito, G.: Experimental investigations on the removal of the hypophysis from rabbits and the consequences . . . . . 497
Salant, W. (Parkins): Observations on effect of calcium on action of cocaine. . . . . 243
— — The action of sodium oxalate in normal and thyroparathyroidectomized cats . . . . . 244
Salmon, A.: Some considerations on the pathogenesis of diabetes insipidus . . . . . 236
Salmon, U. J.: cf. Goldberger. . . 227
Salter, W. T.: cf. Lerman. . . . . 629
Sammartino, R.: cf. Houssay. . . . . 108, 113, 223
Samuels, L. T.: cf. Gulick. . . . . 364
Santenoise, D.: cf. Hermann. . . . 107
Saphir, W.: cf. Leventhal. . . . . 495
Sar-Louis, A. G.: Aschheim-Zondek test with mature mice. . . . . 314
Saruk, F. S.: cf. Kunde. . . . . 128
Saunders, F. J.: cf. Cole. . . . . 199
Sauphar, G.: New clinical sign of folliculin activity; tests of breasts . . . . . 728
Sawyer, M. E. MacK. (Brown): The effect of thyroidectomy and thyroxine on the response of the denervated heart to injected and secreted adrenine. . . . . 745
Schaefer, R. L.: Menopausal hypertension . . . . . 705

Schaffer, N. K.: cf. Lee.....123
Scheps, M.: cf. Elmer .....627
Schittenhelm, A. (Eisler): The excretion of iodine in a myxedematous man after continuous administration of thyroxine...252
Schless, R. A.: cf. Capper.....503
Schmeckebier, Mary M.: cf. Max.329
Schreyer, W.: Histological changes in the mucus membrane of the genital tract of female cattle during estrous cycle.....488
Schrire, I. (Zwarenstein): Endocrine factors in the causation of the cretinuria of pregnancy...230
Schultze, K. W.: Hypophysis and castration obesity .....497
Schwartzbach, S. S. (Uhlenhuth): The morphology and physiology of the salamander thyroid gland; the effect of the thyroid activator on thyroidectomized animals .....252
Schwarz, H. (Topper): Cholesterol partitions of the blood in myxedema (cretinism) .....508
Schweizer, M.: cf. Haterius.....673
Scott, H. M. (Payne): The effect of gonadectomy on the secondary sexual characters of the Bronze turkey .....615
Searle, D. S.: cf. Coombs..374, 421
Segal, M.: cf. Canzanelli.....742
Selle, W. A. (Westra and Johnson): Attempts to reduce symptoms of experimental diabetes by irradiation of hypophysis... 97
Selye, H.: On the nervous control of lactation .....119
— (Collip and Thomson): Endocrine interrelations during pregnancy .....151
— cf. McKeown .....720
Sevringhaus, A. E. Cytological studies on the rat pituitary after injection of pregnancy urine extract and pregnancy blood serum .....498
— cf. Reese .....478
Sexton, D. L.: Interpretation of lowered basal metabolic level..579
Shelling, D. H. (Asher): Calcium and phosphorus studies; effect of calcium and food intake of parathyroidectomized rats.....376
— — Calcium and phosphorus studies; effect of diet and viosterol on tetany and on serum calcium of parathyroidectomized rats .....625
Shelton, E. K. (Cavanaugh and Evans): Hypophyseal infantilism; treatment with anterior hypophyseal extract. Preliminary study .....370, 498
— (Cavanaugh and Long): Studies on effect of human blood serum upon growth of rat..543
Shepardson, H. C. (Wever): Myxedema and diabetes mellitus; with the report of a case..746
— cf. McGavack .....722
Sherwin, Carl P.: cf. Harrow...357
Sherwood, T. C. (Luckner): Further studies on the effect of cod liver oil on the thyroid gland..746
Shorr, E.: cf. Papanicolaou....727
Shumway, N. P.: cf. Duncan....737
Siegmund, H.: Biologic effects of hormone in lutein cysts in cases of hydatid moles and chorioepithelioma .....366
Siehrs, A. E. (Miller): Disappearance of vitamin C from the adrenals of scorbutic guinea pigs .....482
Sievers, R. F.: cf. McIntyre.....298
Silbert, S.: cf. Friedlander.342, 461
Silberstein, F. (Engel): The presence of estrogenic substance in the pineal gland .....739
Silink, K.: cf. Charvat .....505
Silva Alcorta, M. E.: cf. Rojas...497
Silvette, H.: cf. Britton.....359
Simon, A.: The pressor and oxytocic content of the hypophysis of rats under various conditions .....236
Simmons, G. F.: cf. Moore.....613
Simpson, Miriam E.: cf. Evans.. .....509, 724, 740
Simpson, S. L. (Kohn-Speyer and Korenchevsky): The adrenal cortex and sex; the influence of cortical extract on normal and castrated males .....361
Singer, E. (Zwemer): Microscopic observations of structural changes in the adrenal gland of the living frog under experimental conditions .....604
Sisson, E. D. (March): Some factors influencing the lengths of survival following bilateral suprarenalectomy .....389
Skarzyski, B.: cf. Skowron.....244
Skowron, S. (Skarzynski): The passage of the follicular hormone through the rabbits' placenta .....244
Slotta, K. H. (Ruschig and Fels): Isolation of corpus luteum hormone .....729
Sly, Grace E.: cf. Bowen .....721
van Slyke, E.: The effect of thyroid hormone upon gill reduction in Triturus viridescens....252
Smelser, G. K.: The response of the guinea pig mammary glands to injected sex hormones and ovarian grafts and its bearing on the problem of sex hormone antagonism .....367
Smith, F. M.: Diabetes insipidus: treatment by intranasal insufflation of posterior lobe pituitary powder .....370
Smith, G. M. (Burr and Ferguson): A study of the effects of intermedin and injury of the hypophysis on traumatic corial menalophores in goldfishes ...409

Smith, G. V. S. (Smith): Excessive gonad-stimulating hormone and subnormal amounts of oestrin in the toxaemias of late pregnancy .....120
Smith, Margaret E.: cf. Sure....253
Smith, O. W.: cf. Smith.....120
Smith, P. E.: General physiology of anterior hypophysis .....734
— Hypophyseal gonadotropic hormones .....735
— (Leonard): Response of the reproductive system of hypophysectomized and normal rats to injections of pregnancy-urine extracts; the male .....621
— cf. Leonard .....228, 369
Smithwick, R. H.: cf. Freeman...108
Snelling, C. E. (Erb): Hemorrhage and subsequent calcification of the suprarenals .....721
Snow, J. S. (Whitehead): Relationship of hypophysis to hair growth in albino rat ..... 88
Soffer, L. J.: cf. Harrop.....360
Solomon, C. I.: cf. Kramer.....738
Sommer, S.: Experimental contribution to the Reid Hunt (acetonitrile) reaction with especial consideration of the sera from pregnant, eclamptic and carcinomatous women and extracts from the urine of pregnancy .....380
Sontag, L. W. (Munson): The effect on the weight of the offspring of administration of Antuitrin G to the pregnant rat..367
Sorkin, E. M. (Batuschanskaya): Alimentary cholesterolemia and blood sugar in diabetes .....738
Spielman, F.: cf. Geist.....731
Spinney, H. L.: Growth and development in its relation to children and orthodontic problems.225
Spivack, Mary: Polycystic ovaries in the new-born and early infancy and their relation to the structure of the endometrium..367
Sprague, P. H. (Newson): A study of the twenty-four-hour blood sugar curve in diabetic patients .....739
Starr, P. (Patton): Observations of remissions in hyperthyroidism induced by pregnancy urine extract .....615
Steere, N.: cf. Robson .....728
Steinach, E.: The treatment of sterility in cattle and cows by means of female sex hormone (Progynon) .....488
— (Kun): Removal of psychic and somatic effects of castration by means of male sex hormone (Proviron) .....488
Steinberg, A.: cf. Rowntree.....740
Stern, Beatrice: cf. Gilligan.....743
Stetson, D. D.: cf. Sugg.....240
Stetson, R. P. (Forkner, Chew and Rich): Negative effect of prolonged administration of ovarian substance in hemophilia..120
Stief, A. (Tokay): The histopathology of experimental insulin intoxication .....240
Stoddard, C. H.: Will cretinism become endemic in Wisconsin?.252
Stoland, O. O.: cf. Lands.....701
Stone, H. B. (Owings and Gey): Living grafts of endocrine glands .....484
— (Owings and Grey): Transplantation of living grafts of thyroid and parathyroid....381
Striker, C.: A case of Simmond's disease (cachexia hypophyseopriva) with recovery .....124
Stringer, S. W.: Diabetes insipidus associated with pinealoma transplant in the tuber cinereum .....502
Strong, L. C.: cf. Gardner.....728
Sufrin, Emanuel: cf. Gruber....447
Sugg, E. S. (Stetson): Pseudoxanthoma elasticum associated with angioid streaks of the retina and diabetes mellitus in sisters.240
Sure, B. (Smith): Hyperthyroidism and nutrition; vitamin B and thyroxin .....253
Susman, W.: The significance of different types of cells of anterior pituitary .....592
Sweet, L. K.: Mongoloid imbecility in the mongoloid races; report of two cases in Chinese children .....722
Swenson, P. C.: cf. Gutman.....378
Swezy, Olive, Ovogenesis and its relation to the hypophysis; the effects of pregnancy, hypophysectomy, thyroidectomy and hormone administration on the ovary of the rat.....120
Swingle, W. W. (Pfiffner, Vars and Parkins): The effect of fluid deprivation and fluid intake upon the revival of dogs from adrenal insufficiency .....224
— — The effect of sodium chloride administration upon adrenalectomized dogs not receiving extract .....224
— — The relation between blood pressure, blood urea nitrogen and fluid balance of the adrenalectomized dog .....362
— (Vars and Parkins): A study of the blood volume of adrenalectomized dogs .....605

Tainter, M. L.: cf. Cutting.....505
Talbot, F. B.: Disorders of internal gland secretion in children.722
Tanishima, T.: cf. Kuré.....128
Tausk, M.: cf. de Fremery.....485
Taylor, S. G. III: cf. Thompson ..... 14, 630

Thoma, Kurt H.: Clinical pathology of the jaws. (Review)...478
Thomas, H. M., Jr.: Acropachy; secondary subperiosteal new bone formation .....253
— Pigment of the nails during hyperthyroidism .....253
Thompson, Phebe K.: cf. Alper..630
— cf. Thompson .....14, 630
Thompson, W. O. (Alper, Thompson and Dickie): The effect of diiodotyrosine on the basal metabolism in myxedema .....630
— (Thompson, Taylor, Nadler and Dickie): Compounds that affect basal metabolism in man ..... 14
— (Thompson, Taylor, Nadler and Dickie): The pharmacology of the thyroid in man.630
Thomson, D. L.: cf. McEuen....496
— cf. Selye .....151
Thuss, O.: cf. De Courcy .....106
Tokay, L.: cf. Stief.....240
Tomasch, J. M.: cf. Ross.....373
Topper, A.: cf. Schwarz.....508
Torella, M.: cf. de Lucia.....501
Trescher, J.: cf. Harrop.....360
Trivus-Kaz, F. A.: Influence of the endocrine glands on the teeth and jaws of children....114
Tschernozatonskaja, E. P.: Effects of pregnancy urine administration to female swine.....413
Tsudzimura, H.: cf. Feldberg...359
Tureen, L. I.: Note on ineffective use of theelin in a case of hemophilia .....367
Turner, H. H.: Diabetes insipidus: treatment with intermedin and pitmelanin .....275
Tutayev, G. V.: cf. Makarova...727

Uhlenhuth, E.: cf. Figge.....246
— cf. Schwartzbach.....252
Uiberrak, K.: cf. Boller....622, 736

Van Waters, Miriam: cf. Rowe..129
Van Winkle, W.: cf. Davis.....479
Vars, H. M.: cf. Swingle.....
.....224, 362, 605
Vassiliadis, H.: The existence of antiblastogenic substances in the suprarenal and hypophysis.607
Verne, J.: cf. Binet.....622
Vidacovitch, M.: cf. Franck.....107
— cf. Hermann .....107
Vines, H. W. C.: cf. Broster.....356

Wachholder, K. (Morgenstern): The effects of active substances of the suprarenal cortex and of adrenaline on the contractions of muscle of normal and suprarenalectomized frogs .....605
Wade, N. J. (Doisy): Prolonged administration of theelin and theelol to male and female rats and its bearing on reproduction ..... 77
Wajsman, J.: cf. Landau.....494
Waldbott, G. L.: So-called thymic death; the pathologic process in thirty-four cases .....503
— (Anthony): So-called thymic hyperplasia; a follow-up study of thirty cases.....504
Wallace, H. L. (Wevill): Toxic goiter; an analysis of the results of surgical treatment ....381
Wallace, J. F.: Thyrotoxicosis in its relation to pregnancy.....253
Wallerstein, H.: cf. Eisenberg...221
Walsh, E. L. (Cuyler and McCullagh): The physiologic maintenance of the male sex glands; the effect of androtin on hypophysectomized rats .....121
— cf. McCullagh .....466
Warnshuis, Lillian: Hodgkin's disease simulating adenoma of the thyroid gland .....381
Watkins, R. M.: Mild hypothyroidism .....382
Watrin, J.: cf. Florentin .....247
Watson, E. M.: Diabetes mellitus in twins .....739
Weeks, C.: cf. Hinton.....248
Weichert, C. K. (Boyd): Stimulation of mammary gland development in the pregnant rat under conditions of experimental hyperthyroidism .....631
— (Boyd and Cohen): A study of certain endocrine effects on the mammary glands of female rats .....607
Weinstein, A. A. (Davis, Berlin and Blumgart): The mechanism of the early relief of pain in patients with angina pectoris and congestive failure after total ablation of the normal thyroid gland .....254
— cf. Berlin .....742
— cf. Blumgart .....626
Weis, M. W.: cf. Werner.....368
Weisman, A. I. (Kleiner and Allen): Cows' milk as a possible excretory source of the anterior pituitary-like hormone .....395
— cf. Kleiner .....610
Welin, G.: cf. Norlin.....739
Wells, L. J.: cf. Moore.....613
Wenner, W. F.: Effect of extract of the suprarenal cortex on maxillary sinusitis in the rabbit .....362
Werner, A. A.: Experiment to produce lactation in castrate women .....144
— Syndrome accompanying deficiency or absence of ovarian follicular hormone .....695
— (Johns, Hoctor, Ault, Kohler and Weis): Involutional melancholia; probable etiology and treatment.....368
Weston, W.: Specially produced milk in the solution of the goiter problem .....254
Westra, J. J.: cf. Selle..... 97
Wever, G. K.: cf. Shepardson...746

Wevill, L. B.: cf. Wallace.....381
White, J. C.: cf. Freeman.....108
White, Priscilla (Joslin and Pincus): Inheritance of diabetes.373
— cf. Pincus .....372
— cf. Root .....239
Whitehead, R. W.: cf. Snow.... 88
Wiesner, B. P. (Marshall): Gonadotropic hormones (p factor); preparation and properties of extracts of anterior pituitary, placenta and pregnancy urine..121
Wilder, R. M.: Hyperinsulinism.502
— The use of anterior lobe pituitary extract in the treatment of Addison's disease...735
Williams, G. A. (Williams): Insulogenic stimulation of sexual development .....624
Williams, M. E.: cf. Bronstein...505
Williams, R. L.: cf. Williams....624
Williams, T. L.: cf. Duncan.....737
Williamson, G. R.: Congenital goiter; thyroidectomy at 18 months .....508
Wilson, F. H.: cf. Hansman....374
Winter, C. A.: cf. Emery .....730
Winter, K. A. (Reiss): Studies on the function of the adrenal cortex; the rôle of the adrenal cortical hormone in sulphur metabolism .....111
Wislocki, G. B. (Hamlett): Remarks on synchorial litter mates in a cat .....729
Witherspoon, J. T.: The cause of the onset of labor; a hormonal investigation .....226
— The endocrinal origin of primary dysmenorrhoea and its hormonal treatment .....403
Wittneben, W.: cf. Flossner.....246
Wohlenberg, W. (Muller): Anti-insulin action of the pancreatic juice .....502
Wolfe, J. M.: Quantitative studies on the reaction of the anterior pituitaries of immature female rats to extracts of pregnancy urine .....471
— Reaction of the anterior pituitaries of immature female rats to injection of pregnancy urine extracts .....735
Wolfe, J. M.: The normal level of the various cell types in the anterior pituitaries of mature and immature rats and further observations ôn cyclic histologic variations .....622
— (Ellison and Rosenfeld): Morphological studies of the anterior pituitaries of mature female rats receiving injections of pregnancy urine extracts .....622
— (Phelps and Cleveland): The anterior hypophysis of the rabbit during oestrus and pseudopregnancy .....735
Wolf, O.: Andersen .....625
Wolfram, J. (Zwemer): Cortin protection against anaphylactic shock in guinea pigs .....721
Womack, N. S.: Hypoglycemia due to adenoma of the islets of Langerhans .....241

Zalesky, M.: A study of the seasonal changes in the adrenal gland of the thirteen-lined ground-squirred (Citellus tridecemlineatus), with particular reference to its sexual cycle...606
— cf. Moore .....613
Zeckwer, I. T.: Some atypical responses of rabbits to insulin...241
Ziegler, Mildred: cf. Engel.....731
Zimmerman, I.: cf. Peller.....614
Zondek, B.: Anterior hypophyseal hormones; the secretion of the follicle-stimulating hormone in the menstrual cycle; the influence of ovarian-transplantation and the sex-hormone on the secretion of follicle-stimulating hormone after castration.....125
— Chromatophorotropic principle of pars intermedia of the pituitary .....736
— Formation of corpus luteum is dependent on anterior pituitary lobe, and not on maturing ovum; fertilized ovum and hormones .....489
— Prolan in the pituitary.....498
Zunz, E. (La Barre): The effect of parathyroid extract on insulin secretion .....244
Zwarenstein, H.: cf. Schrire....230
Zwemer, R. L.: cf. Agate.....719
— cf. Singer .....604
— cf. Wolfram .....721

# SUBJECTS

Acetylcholine, liberation of in sympathetic ganglia .....483
Acromegaly and polyglobulinism.732
——psychoses .....124
——xanthoma diabeticorum ...722
Adenoma of hypophysis, roentgen therapy in .....231
Addison's disease and blood cholesterol .....234
————solar plexus involvement.479
——anterior lobe extract in....735
——report of a case .....479
——salt in treatment of .....481
Adiposogenital dystrophia and polyglobulism .....732
Adrenal ablation and blood pressure .....362
————blood volume .....605
————hypophysis .....106
————insulin .....479
————muscle glycogen recovery .....221
————oestrous cycle .....360
————pressor and oxytocic content of hypophysis ...236
————salt treatment .....720
————sodium chloride administration .....224
————thymus extract .....245
——effect of, on hypophysis...730
——factors influencing survival after .....389
——survival period after bilateral .....108
—accessory, in white rats .....480
—acetylcholine in .....603
—action of anterior pituitary extract on .....223
—and anesthetic hyperglycemia.479
——blood sulphur .....360
——carbohydrate metabolism...359
——experimental diabetes .....622
——glucose tolerance .....359
——hypertension .....719, 721
——hyperthyroidism .....742
——hypophyseal basophilism ..732
——nicotin hyperglycemia ....111
——pineal ablation .....625
——posterior pituitary extract hyperglycemia .....113
——reproductive activity .....613
——scurvy .....482
——sex cycle, seasonal changes in .....606
——status lymphaticus .....105
——thyroid relationship .....745
——ventricular fibrillation after electric shock .....720
—antiblastogenic substances in..607
—ascorbic acid in .....482
—biological assay of cortical hormone of .....360
—cells and diet .....481
—chemical studies of .....603
—cortex and glycogen formation.107
————medulla volume .....523
Adrenal cortex and sex.....361
——a surgical and pathological study .....356
——effect of extracts of on growth and reproductive system .....109
——extract and anaphylactic shock .....721
————and muscle contraction..605
————tumor metabolism ...606
——function of .....111
——therapy in Graves' disease..105
——vitamin C in .....719
—cortical extract and muscle glycogen recovery .....221
————influence of, on endocrine glands .....106
——hormone and vitamins ....603
————extraction of, from interrenal body of fishes...223
————in sulphur metabolism...111
————oral administration of ..480
—deficiency and hypoglycemia..482
—destruction and muscle phosphagen .....720
—effect of cortical extract of on sinusitis .....362
————pilocarpine on .....125
—extract and eye reaction .....481
————oestrous cycle .....360
————spartein, effect of, on blood pressure .....110
————wound healing .....114
——effect of, on basal metabolism ..... 14
————————circulating blood volume .....480
——free and potential .....361
—glands and blood pressure....109
——degeneration of, and diabetes mellitus .....221
——effect of lactation-stimulating extract on .....305
————————on ovarian cycle ....106
————————diet, insulin and thyroxine upon .....223
——formation of epinephrin-like substance after autolysis of .....109
——in general visceroptosis ...222
——tumor .....719
—gonad relationship .....361
—hemorrhage and calcification..721
————hypophysis ablation ....733
—histological aspects of, after hypophysectomy .....108
—hormone action of hypophysis on .....234
—hypertrophy and hypophysis..730
————————implants .....733
—hypophysectomy and adrenaline content of .....223
—influence of, on teeth and jaws.114
—insufficiency and fluid intake..224
——factors affecting .....719
——neurological aspects of.....719
——studies on .....360

Adrenal involvement in fever....604
— luteinizing hormone in cortex of .....224
— medulla, adrenaline content in.480
— — chemistry of .....603
— medulloblastoma involving the kidney .....105
— pheochromocytoma of .....221
— problem .....633
— relation of, to bone diseases..225
— secretion, action of extract of Trichocereus candicans on..110
— — and insulin hypoglycemia..108
— — — splanchnic stimulation.. .....110, 111
— sexual precocity .....361
— structural changes in .....604
— subtotal bilateral ablation and hypertension .....106
— therapy in diathesis of infancy.113
— thyroid syndrome .....248
— tumor and hypertension.....720
— vein blood diverted into portal vein, effect of .....221
— weight of after hypophysis ablation and lesion of tuber cinereum .....108
Adrenalin and ventricular rhythms .....720
— content of blood, effect of atropin on .....603
— nervous discharge of .....359
Adreno-genital syndrome .....222
Adrenotropic factor of hypophysis.616
— substance of hypophysis .....730
Allen-Doisy test, substance in human blood producing .....723
Amenorrhea and corpus luteum hormone .....486
— — low basal metabolic rates..250
— effect of pregnancy urine extract on .....269
— use of ovary extract in treatment of .....117
Amniotin and onset of labor.....226
— effect of on activity after castration .....229
Androtin, effect of, after hypohysis ablation .....121
Angina pectoris and thyroid ablation .....254
Anterior pituitary-gonad inter-relations .....187
— — hormone content of hypothalamus .....293
— — like hormone in cows' milk.395
— — — principle and testicle descent .....368
— — — substance of urine and metabolism ..... 51
— — — substances and therapy.620
— — luteinizing extract of pregnancy urine .....169
Anti-insulin reaction of pancreatic juice .....502
Antuitrin G and weight of offspring .....367
Antuitrin S and fertility in rabbits .....229
— effect of on blood elements...731
AP-L principle of pregnancy urine in testicular descent .....363
Arrhenoblastomas, morphology and hormone function of.....726
Aschheim-Zondek reaction in blastomas .....492
— — test and chorio-epithelioma.235
— — — with mature mice.....314
— — pregnancy test .....365

Basal metabolic rate and impedance angle .....626
— — — — thyroid .....181
— — — — — function .....627
— — — effect of fluoride injections on, in hyperthyroidism .....247
— — — effect of thallium on....723
— — — interpretation of .....579
— — — prediction of, from pulse pressure and rate ...722
— — — treatment of chronic heart disease by lowering .....247
— metabolism and growth.....484
— — in man, compounds affecting 14
— — — myxedema, effect of diiodotyrosine on .....630
— — — normal and subnormal children .....722
Basedow's disease, adynamia in..505
— — and psychic trauma .....378
Blood chemistry and menstruation .....366
— cholesterol and creatinine in normal and subnormal children .....722
— — — hypometabolism .....234
— — — thyroid .....505
— pressure and adrenal ablation.362
— — — adrenaline .....109
— studies in hyperthyroidism...247
— sugar and cholesterolemia in diabetes .....738
— — — hypophysis ablation ....490
— — — muscle glycogen after liver ablation .....125
— — curve in diabetic patients..739
— — effect of thyreotropic horhone on .....233
— — increase and sympathine ..105
— — level and assay of insulin..238
— — response to insulin after thyroidectomy .....741
— volume and adrenal ablation..605
— — and oöphorectomy .....461
— — effect of thyroid and gonad ablation on .....342
— — in thyrotoxicosis .....506
Body growth, effect of spaying on.347
Bone-age studies in childhood myxedema ..... 21

Calcium and parathyroid ablation.376
— content of blood and anterior lobe extract .....233
— effect of, on action of cocaine..243
— metabolism, effect of thyroid extract on .....374
— — and diabetes mellitus.....239

Calcium metabolism, influence of pineal gland extract .....244
— — studies on .....242
Carbohydrate metabolism and adrenals .....359
— — — blood cholesterol .....371
— — — hypothyroidism .....741
— — in hyperthyroidism and goiter .....377
— — — hypothyroidism .....743
— — relation of hypophysis, hypothalamus and autonomic nervous system to.736
— — sex variation in .....363, 364
— — sexual variations in.....236
— tolerance and splenectomy....245
Castration and adrenal extract...361
— — adrenotropic substance of hypophysis .....730
— — body growth .....347
— — follicle-stimulating hormone .....125
— — hypophysis .....616
— — male sex hormone .....488
— — ovarian follicular hormone.695
— atrophy and theelin .....441
— — of uterus ..... 51
— during pregnancy and folliculin content .....608
— effect of amniotin on activity after .....229
— — — in adult male .....366
— — — on hypophysis .....160
— experiment to produce lactation after .....144
— in women and follicle stimulating principle .....494
— obesity and hypophysis .....497
— results of .....486
Cell types in hypophysis .....592
Cerebral motor cortex and parathyroids .....421
Cholesterol metabolism and xanthoma .....722
Chorionepithelioma, diagnosis of.495
Constitution and onset of puberty.614
— endocrine glands and.....217
Corpus luteum and hypophysis..489
— — — lactation .....144
— — exact testing for specific hormone of .....115
— — hormone and amenorrhea..486
— — — in treatment of dysmenorrhoea .....403
— — — isolation of .....729
— — internal secretion of .....485
— — of pregnancy and hypophysis .....407
— — relation of lipids to oestrin in .....599
— — test for activity of .....118
Cretinism and hypothyroidism...376
— — hypothyroidism in children.505
— in Wisconsin .....252
Cryptorchism, effect of on hypophysis .....160
— — — pregnancy urine on.69, 494
— in guinea pigs .....724

Development, endocrine glands and .....217

Diabetes, abdominal symptoms in acidosis of .....239
— and cancer .....623
— — duodenal extract .....737
— — gangrene .....738
— — irradiation of hypophysis.. 97
— — pregnancy .....119
— — tuberculosis .....373
— blood sugar and cholesterolemia in .....738
— effect of oestrin in .....624
— — — ten years' insulin treatment in .....623
— endocrine reactions in experimentally produced .....622
— histo-chemistry of arteries in.239
— inheritance of .....373
— insipidus and hypophysis extracts .....494
— — — pineal tumor .....502
— — — posterior lobe extract ..732
— — intranasal treatment of....370
— — pathogenesis of .....236
— — treatment of .....275, 729
— mellitus and abdominal splanchnopathy .....499
— — — acromegaly in xanthoma.722
— — — arteriosclerosis .....501
— — — blood cholesterol .....371
— — — calcium metabolism ...239
— — — degeneration of adrenals.221
— — — diet .....500
— — — myxedema .....745
— — — heredity .....370
— — — Paget's disease .....515
— — — pseudoxanthoma elasticum .....240
— — — temporary visual disturbance .....623
— — differential diagnosis of by constitutional signs ....126
— — effect of thyreotropic hormone on .....233
— — in children .....501
— — — twins .....739
— — incidence and variations of.127
— — inheritance of .....372
— — insulin resistance in .....239
— — pathogenesis of .....372
— — rôle of fats in .....237
— — studies in .....371
— prolonged administration of glucose and insulin in.....499
— psychological factors in.....624
— 24-hour blood sugar curve in.739
Diabetogenic factor of hypophysis.616
Diet and parathyroids .....453
Dinitrophenol, effect of, on basal metabolism ..... 14
Diuresis and hypophysis stimulation .....432
— of hyperthyroidism .....742
Diuretic hormone of intestines..484
Dwarfs, gaseous metabolism of..362
Dysmenorrhoea, hormone treatment of .....403

Endocrine disorders and mental retardation, organotherapy in.572
— dyscrasias and mental disorders .....114, 483

Endocrine factors in creatinuria of pregnancy .....230
— function, action of thallium on.723
— — of testes .....228
— glands and diuresis .....358
— — — growth .....721
— — — muscle glycogen .....113
— — — oedema .....358
— — — pigmentary cirrhoses ...112
— — disorders in children.....722
— — interrelation of .....217
— — living grafts of .....484
— — relation of to constitution and development .....217
— interrelations during pregnancy .....151
— organs, influence of, on teeth and jaws .....114
— pathogenesis of fibrous osteodystrophies .....242
— products in women's diseases..483
— reactions in experimental diabetes .....622
— therapy in personality disorders .....255
Endocrinology and metabolism, relation of, to orthodontia .....225
— evaluation, of periodical literature from standpoint of....213
— practical .....216
— present-day summary of.....606
— recent advances in .....216
— relation of sympathin and acetylcholine to ..... 1
— yearbook of neurology, psychiatry and .....478
Endocrinopathies and behavior problems .....129
— — dental conditions .....478
— — hypoglycemia .....482
— — mental retardation .....561
— hypopituitary .....619
Endocrinopathy, atypical familial, in males .....639
Endometrial studies .....321
Environment and onset of puberty .....614
Epinephrine secretion in insulin hypoglycemia .....223
Ergosterol, influence of on growth.112
Estrogenic principles, physiology of .....723
— substance from males ..... 33
— — in pineal gland .....739
Estrus in parabiotic animals.....613
Eunuchoidism, ovarian therapy in case of .....284
Exophthalmic goiter and Golgi apparatus .....743
— — — iodine .....507
— — in children .....245
— — — infancy .....742
— — treatment of .....380
Exophthalmos, experimental ....378
— following thyroid ablation ....742

Fat, estimation of, in blood serum.237
— metabolism hormone and hyperglycemia .....232
— tolerance and pituitary .....587
Female sex hormone administration and reproduction ..... 77
— — — and hemophilia ...226, 367
— — — — interstitial cells of ovary .....614
— — — — sterility .....488
— — — effect of, in male rats...486
— — — in amenorrhea .....614
Follicle stimulating principle and castration .....494
— — hormone and menstrual cycle .....125
Follicular hormone, effect of, on seminal vesicles .....116
Folliculin, action of on hypophysis .....115
— activity, test of .....728
— content and castration during pregnancy .....608
— effect of, on male gonads.....611
— — — testis .....611
— — — thyroid .....245
Friedman pregnancy test .....365
— test in diagnosis of pregnancy.227
— — — obstetric diagnosis .....365

Galactose utilization and insulin.501
Giantism and mental retardation.561
Giants, gaseous metabolism of...362
Glucose tolerance curve in hypothyroidism .....743
Glycogen formation and adrenal cortex ablation .....107
Goiter and carbohydrate metabolism .....377
— — cretinism in Wisconsin ....252
— — iodine content of milk.....254
— — mental retardation .....561
— clinical and histological picture of .....629
— congenital .....508
— functional-structural relationship of .....383
— iodine in treatment of .....377
— preventive treatment of.....630
— surgical treatment of toxic...381
Gonad ablation and secondary sex characters .....615
— — effect of amniotin on activity after .....229
— — — — on blood volume ....342
Gonads and behavior problems...129
— — hypophysis, relationship of.187
— — muscle glycogen .....113
— — pigmentary cirrhoses .....112
— effect of adrenal cortical extract on .....106
— — — choline on .....727
— — — gonadotropic hormones on .....724
— — — hypophysis on .....730
— — — pregnancy urine extracts on .....621
— in development and metamorphosis of tadpoles .....118
— influence of, on teeth and jaws.114
Gonad-stimulating action of hypophysis and adrenalectomy...106
— — hormone and chorioepithelioma uteri .....364
— — — — teratoma testis .....364

Gonad-stimulating hormone, excessive amounts of, in toxaemias of pregnancy ..... 120
— — — — in blood serum of pregnant mare ..... 199
— — — — influence of thyroid on .. 627
— — — — of pregnant mares ..... 608
Gonadotropic hormone and thymus ..... 740
— — effect of, on hypophysis ... 620
— — — — — on testis ..... 610
— — in epitheliomas of uteri ... 723
— — of hypophysis, sex difference in ..... 615
— — preparation and properties of ..... 121
— — study of ..... 364
— substance in lutein cysts ..... 366
Graves' disease, adrenal cortex therapy in ..... 105
Growth and anterior pituitary preparations ..... 209
— — basal metabolism ..... 484
— — development in relation to orthodontia ..... 225
— — endocrine glands ..... 721
— — hypophysectomy ..... 509
— — hypophysis ..... 493
— — mental retardation ..... 561
— — parathyroids ..... 374
— — thymus extract ..... 740
— effect of adrenal cortex extracts on ..... 109
— — — — anterior pituitary growth hormone on composition of ..... 123
— — — — pineal ablation on ..... 625
— — — — placental extract on .... 625
— hormone and creatine excretion ..... 745
— — — — glutathione concentration ..... 493
— — — — hypophysis ..... 734
— — in blood serum ..... 543
— — of hypophysis ..... 617
— influence of gonads on ..... 187
Gynecomastia, nature and types of ..... 482

Hair growth, relation of hypophysis to ..... 88
Heart response to pitressin and thyroid ..... 447
Hormones and pregnancy in mare. 199
— chemistry of ..... 357
— influence in synchorial litter mates ..... 729
— inverse response of ..... 482
— investigation of cause of onset of labor ..... 226
— regulation of purine metabolism ..... 246
— treatment of dysmenorrhoea .. 403
Hydatid mole, gonadotropic substance in ..... 366
Hyperglycemia, adrenals and nicotin ..... 111
— and fat metabolism hormone .. 232
— effect of anterior pituitary extract on ..... 233
Hyperglycemic action of posterior pituitary lobe extract ..... 123
Hyperinsulinemia and adenoma of pancreas ..... 373
Hyperinsulinism and epilepsy .... 126
— effect of, on central nervous system ..... 738
— review of ..... 502
— treatment of ..... 689
Hyperparathyroidism, differential diagnosis of ..... 378
— unusual case of ..... 375
— 17 proved cases of ..... 241
Hypertension and subtotal bilateral adrenalectomy ..... 106
Hyperthyroidism and adynamia .. 505
— — blood ..... 380
— — carbohydrate metabolism .. 377
— — hypoglycemia ..... 482
— — irradiation ..... 630
— — mammary gland development ..... 631
— — normal basal metabolic rate. 743
— — nutrition ..... 253
— — pregnancy urine extracts ... 615
— — 3-5 diiodotyrosine ..... 505
— blood studies in ..... 247
— diuresis of ..... 742
— effect of intravenous fluoride injections in ..... 247
— — — — on calcium and phosphorus metabolism ... 374
— — — — reproductive organs .. 742
